

From the Principal High Talent

Congratulations to David Zhou (12T) and Blair Zong (12E) who were awarded Sydney East Blues in Volleyball.

P&C Donations

I want to extend my thanks to the SBHS P&C Association for its recent strong financial support for the school. It made a significant investment of \$23k to assist with **staff training in positive psychology and choice theory**. Mr Kay is driving this project to have a critical mass of teachers trained extensively in this relationship management methodology. Another donation of \$15k was made towards **the bus replacement program**. High owns five vehicles which need to be replaced at the end of their useful lives. For >15 years we have been running a sinking fund within the P&C to

build the capital capacity to replace any one of our three buses, should the need arise. The target of the fund is at least \$200k. The school responded to the awareness raised in society about the necessity for consent education to be both more rigorous and to recur in a spiral format throughout high school. I published our '**respectful relationships education**' program earlier in the year, budgeting up to \$20k for necessary new resources. The P&C have seen the value in this initiative and contributed \$20k towards it.

The two **basketball courts** have just had all their ring netting replaced but the surfaces are worn severely and require immediate **refurbishment**. The P&C contributed \$10k towards that project to be undertaken once the Governors Centre remediation work is finalized. It is always important in selective schools to pay close attention to **underachievement**. Interventions targeted at underachieving students add value to outcomes. The P&C has donated \$3k towards that plan. **Literacy** is a fundamental pillar of our Strategic Improvement Plan. As a feature of that Plan, a literacy expert will be invited to hold workshops with staff to build their capacity in methods to improve the literacy growth of our students in a differentiated manner. Funds of \$2k have been advanced to help fund this professional development opportunity. It will soon be World Teachers Day. In commemoration of that event, the P&C have donated \$1,000 towards the purchase of a staff common room coffee machine for the amenity of our hard-working people. In total \$64k has been donated in a targeted manner to help fund a desirable variety of projects. On behalf of the High community, I thank the SBHS P&C Association for their generosity.

Online Learning – Week 6

This week we continued our full-time synchronous lessons with reduced direct contact time to 45 minutes per period. Staff and students are still feeling overworked. For students, they sense they are getting more homework than usual and feel they are never really off-line due to more screen time required to do homework. Due to the relentless nature of working with CANVAS conferences, zoom or Microsoft teams, teachers are feeling overworked by the constant daily demands of

being online and then backing up to mark online submissions at night. In short, everyone is getting too much screen time. The staff will discuss strategies to alleviate some of this ongoing stress for teachers and students. This week, the Year 10 into 11 subject selection evening, conducted by Mr Kay and Dr Pinnington-Wilson was very well attended, generating many questions. Staff are offering individual short interviews to offer guidance and advice to Year 10 students during the stage 6 subject selection process over the next couple of weeks. Many boys have booked in already.

Year 12 Vaccinations

The vaccination campaign for Year 12 students residing in the level 4 LGAs wrapped up this week. We are still supplying updated names and mobile phone numbers for students who have been unable to book a time. I guess the DoE passes on the lists to Health NSW who then contact the numbers by text. Regrettably, the program will not apply to 15-year-old students sitting for the HSC, affecting one of our students. Representations are being made to the Education Minister on their behalf. Given the influx of Pfizer doses and the Moderna vaccine soon to come online, we think that vaccinations for all HSC students as a priority is the logical and necessary next step.

NAPLAN Results

The NAPLAN tests provide a snapshot in time for performances in Year 7 and Year 9. Until the student-by-student analysis is done, we can at least provide information on growth in skill levels between Year 7 and Year 9. These comparisons are not completely valid as there are only 180 students in the Year 7 cohort against 208 in Year 9. For writing, the average growth is from high band 8 to mid-band 9. For reading, average growth remains in band 9 moving from the middle to the high range. (That result would suggest that we need more explicit teaching and testing of content comprehension). Grammar and punctuation stayed in Band 10, indicating a low ceiling on the test. Spelling moved from mid Band 9 to high Band 9, indicating a need for more structured spelling practice. Numeracy started in band 10 and hit the

band 10 ceiling by Year 9. Our main interest in these results lies in NAPLAN growth, positive or negative, for individuals. A more detailed analysis of the results will be undertaken next term.

Dr K A Jaggar
Principal

DEBATING

Debating Blossoms During Lockdown

The GPS Debating Season Continues

Last week we were against Kings. The Seconds won for the third week in a row! Well done Auguste, Nicholas, Jerald and Cosmo. The 9As, 9Bs and 10As are also undefeated! Against Kings we had wins in 8B and 10B.

This week we are against St Joseph's. Unfortunately, St Joseph's are only fielding teams in the Firsts and Seconds, so the rest of our teams have a Bye.

Debating socials coaching continues online. If you wish to join in please email me at RigbyM@sbhs.nsw.edu.au for the appropriate Zoom link.

Mrs Rigby
MIC Debating

School Values – Compassion

While often considered an aspect of respect, compassion can be far more impactful than people realise. Here at Sydney High we not only aim for respectful interactions, but the creation of an inclusive, understanding and empathetic environment, with everyone supporting each other at all times.

One can potentially be respectful without going that extra mile and showing compassion for those around them. When we show we truly care for others by aiding them without expectation of reward, this enhances connections and creates a more positive energy in our interactions. An individual going out of their way to support someone in need has an extraordinary effect on both parties, as well as those who witness such acts of love and compassion.

There is an abundance of research looking at the impact of compassion on people's physiological and psychological wellbeing. Charles Darwin's works referred to survival of the fittest, but also embody the concept of survival of the kindest. He argued that "communities with the greatest number of the most sympathetic members, would flourish best". Not surprisingly, studies have also shown that being compassionate make us attractive to potential romantic partners, often considered one of the most highly desirable qualities.

Other psychological studies indicate that connecting with those around us in meaningful ways provides mental and physical health that speed recovery from disease and even lengthen lifespans, as social connections strengthen our immune systems (Diener and Seligman, Brown and Konrath). This is often explained due to the act of giving being as pleasurable or even more so than the act of receiving. The pleasure centre of the brain has been shown to be equally and at times more active when being the initiator of compassionate acts compared to when the recipient.

Furthermore, Elizabeth Dunn's experiments regarding money indicated that participants gifted money and directed to spend the funds on others had a significantly higher level of happiness at the end of the study than those who were directed to spend on themselves. Her findings also indicated that acts of compassion towards

others can assist those with depression and anxiety, as they shift their preoccupation from self-focus to the act of helping others, lifting their mood.

Importantly, while compassion for others is undoubtedly important, we should never forget to have compassion for ourselves. Too often we can be unkind to ourselves when facing setbacks or making significant mistakes. Many of us are our own worst critics, talking to ourselves in ways we would never speak to others.

In these challenging moments it's just as important to treat yourself with kindness. Too often those suffering emotional pain are highly self-critical of their prior actions when instead they could focus on the future. This may be through positive self-talk, forgiving yourself for any mistakes you've made, or even just taking time to have an emotional break.

Research by Breines and Chen found that self-compassion increases motivation and performance. They discovered that those who were forgiving and supportive of themselves had a more positive belief in improving weaknesses and greater desire to apply themselves after setbacks or transgressions compared to those who did not have this mindset. Their findings even indicated that an accepting approach to personal failures can provide higher levels of motivation for improvement.

So whether it be:

- supporting the classmate who needs assistance with a task
- encouraging a teammate having difficulties within a game
- lending a hand at home without any expectation of reward
- being patient with and understanding of those around you
- showing an act of kindness to the person needing support on public transport
- empathising with others by considering their perspective in the actions you take
- listening intently to someone having a tough day
- creating an inclusive environment amongst friends, colleagues and peers; or
- forgiving someone, including yourself for something that's happened,

we can all show compassion to ourselves and others and in doing so, become positive, resilient and healthy individuals with closer connections to those around us.

Jamie Kay
Deputy Principal Junior School

The [Sydney High School Old Boys Union](#) is running its annual Career webinars.

There are 3 webinars across the fields of Law, technology and Finance/Business.

Each webinar features 4-5 Old Boys who are leaders in their field, discussing the varied nature of roles within their field.

From original employees of our biggest startups, to lawyers representing the rich and famous, and leaders in the financial sector, you'll find High Old Boys across all industry sectors.

These Old Boys look forward to discussing with students and their parents, the career choices they made, the university courses they studied and the paths they trod to get to where they are.

All students and parents are welcome to attend, and registration is mandatory. Speakers can be found on the registration site.

The webinar events are on as follows via Zoom:

A Career in Law – Friday 20 August at 6pm Register at this [link](#)

A Career in Business/Finance – Tuesday 24 August at 5pm Register at this [link](#)

A Career in Technology – Thursday 26 August at 6pm Register at this [link](#)

A Career in Law - Legal Mentoring Webinar

The First in the 2021 Old Boys Union Career Webinar Series

The aim of the session is to hear from four Old Boys across various fields in Law, explaining the varied nature of careers available and their personal journeys. The boys will also have time to ask questions of the mentors.

You will hear from the following Old Boys:

Paul Almond (1981) - Host

Partner, Almond Law

Paul Almond finished High in 1982. He spread his interests widely playing Cricket, Basketball, Rifle Shooting, Rugby & Athletics and enlisted in the Cadets. He won the Year 12 prizes for Modern History & General Studies.

Paul studied Commerce/Law at UNSW, where he developed his keen interest in Industrial Relations. He started employment in industrial relations while completing his full-time studies. In 1989 as a graduate, he started at law firm Minter Ellison, where he worked for 14 years. He spent 3 years working at Minter Ellison's Hong Kong office. He moved to Clayton Utz for 5 years, then Dibbs Barker for 5 years. In 2014, he started Paul Almond Employment Law, his current legal practice.

Paul practices exclusively as an Employment Lawyer, acting mostly for companies. Check out his [website](#) for more details! He keeps fit as a Triathlete.

Alex Feldman (2003)

Partner, [Tiger Bear Partners](#)

Alex finished at High in 2003, he loved rowing and was part of the first of the Year 10 Vllls which won the Riverview Gold Cup. He also played soccer and Chess. While studying Law & Arts at Macquarie University, Alex came back to High to setup the Chess program as you know it today, some 17 years later.

Alex was a Senior Associate at King & Wood Mallesons (a top tier firm), specialising in major projects across various sectors including energy, infrastructure and technology.

After King & Wood Mallesons, was the Chief Strategy Officer and General Counsel for ASX listed amaysim responsible for the Group's legal and regulatory functions, as well as investor relations and strategic corporate development opportunities such as mergers and acquisitions and significant partnerships

Alex is now a Co-founder in an independent strategic advisory business and remains an active investor in Australian technology businesses, he is also on the Board of Pendula, the Sydney High Foundation and the Sydney High Old Boys Union.

Hilbert Chiu (2000)

Barrister at Tenth Floor Selborne/Wentworth Chambers

Hilbert finished at High in 2000. He was involved in school cricket and rifle shooting and was part of the debating team that won the CHS competitions in 1999 and 2000, and the GPS competition in 2000.

Hilbert studied Arts and Law at Sydney University, where he was awarded the university medal in History.

Hilbert worked for several years a solicitor at Freehills, now Herbert Smith Freehills, for a year as a Tipstaff to a judge of the Supreme Court of New South Wales and has been a barrister at Tenth Floor Selborne/Wentworth Chambers for the past 10 years.

Hilbert's main areas of practice are in Professional Negligence, Health Law and Insurance Law.

Bryan Wrench (2005)

Managing Lawyer, [Murphy's Lawyers](#)

Bryan graduated 2005, rowed in the first and second VIII, played rugby first and second XV, was both a school prefect and SRC President.

He then went on to study a Bachelor of Law and Commerce at Macquarie University.

Now managing lawyer at Murphy's Lawyers, specialising in criminal law, having worked there since high school.

Bryan has appeared twice on 60 Minutes, representing high profile persons in the media including Sam Burgess, Shannon Noll, Danny Lim, John Jarratt star of Wolf Creek, and numerous other people.

Recognised in Top 100 powerful people in Sydney 2021, and regularly labelled as one of the top criminal lawyers in Australia.

A Career in Business/Finance - an Old Boys Union Mentoring Webinar

The second in the 2021 Old Boys Union Career Webinar Series

The aim of the session is to hear from four Old Boys across various fields in business, explaining the varied nature of careers available and their personal journeys. The boys will also have time to ask questions of the mentors.

You will hear from the following Old Boys:

Darren Howard (1983) - Host

Director, Merit East Wealth

Financial Planner & SMSF Specialist

Darren Howard BA (EC) F Fin Grad Dip FP SSA, has been working in financial markets since 1988.

He is an expert in SMSF technical and investment strategies, ensuring members extract the maximum benefits and efficiencies from their fund. Darren holds a Bachelor of Arts (Economics) from UNSW, Graduate Diplomas in both Applied Finance and Investment and Financial Planning from FINSIA. He is a fellow of FINSIA and a qualified SMSF Specialist Adviser with the SMSF Association of Australia.

At High, Darren played Cricket and Rugby.

Hayden King (1981)

Former COO, BT Financial

Prior to his recent retirement from permanent executive roles, Hayden was Chief Operating Officer at Pandal Group (formerly BT Investment Management). In that role Hayden was responsible for all functions across investment trading and exposure management, portfolio compliance, performance management and reporting, data management, project planning and implementation, service provider selection and oversight, information technology and product management. Hayden was also a member of the Pandal Executive Committee and served as a Director on the Responsible Entity Boards of both the Institutional and Fund Services companies.

Prior to joining Pandal Group, Hayden held similar senior executive positions with some of Australia's leading financial services organisations including Macquarie, Challenger Financial Services Group and Colonial First State Investments over a distinguished 37 year career within the banking and financial services industry.

Hayden is Director of private consulting firm Nevada Partners, a Board Member and President of Cromer Golf Club Limited and a Board Member of The Burdekin Association, a not for profit organisation focused on solving the issues of child and youth homelessness by providing care, education, support and development for young people.

Paul Kofod (1974)

Senior Manager, Suncorp

Paul is professional manager currently with Suncorp with extensive skills over a broad range of financial, business development and management activities.

Paul is professional manager currently with Suncorp with extensive skills over a broad range of financial, business development and management activities.

He is highly motivated with a strong task and people oriented approach, with the ability to quickly identify and resolve complex issues through application of lateral and creative thinking. Paul is well known and respected in the financial services industry, including Financial planning, Funds Management, Banking, Insurance and Superannuation.

Paul matriculated from Sydney Boys High in the class of 1974. Paul experienced considerable success at High in the academic & sports arenas including championships in GPS Rugby, Athletics & Basketball, including playing with Mr Stein in the 1974 "Threepeat" winning GPS Rugby premiership.

Shuming Wang (2013)

Associate, [Ares Capital management](#)

Shuming Wang is currently an associate at Ares Capital Management in the United States, focusing on illiquid credit investments. Prior to joining Ares, he was an analyst at J.P. Morgan, focusing on financings for acquisitions, leveraged buyouts, and general corporate refinancings.

Shuming holds a Bachelor of Arts in Economics from the University of California, Los Angeles. Before moving to college, Shuming graduated Sydney High in 2013 where he was School Captain. He also represented the school in basketball, rugby, and was the Drum Major of the marching band.

A Career in Technology - Technology Industry Mentoring Webinar

The Third in the 2021 Old Boys Union Career Webinar Series

The aim of the session is to hear from four Old Boys across various fields across the technology industry, explaining the varied nature of careers available and their personal journeys. The boys will also have time to ask questions of the mentors via the Q&A function in Zoom.

You will hear from the following Old Boys:

Christopher Fong (1997) - Host

Founder, Xgoogler

[Chris Fong](#) graduated from Sydney Boys High in 1997 and completed a Bachelor of Commerce and Bachelor of Arts at Sydney University.

He attended Cornell University in the United States as an exchange student for his final year of university, it's an experience that he recommends every student to embark on if they have the opportunity. He started his career at Expedia then spent 8.5 years at Google, his last role was to work with the top venture capital firms and start-ups in the world and have them partner with Google across all their product areas. He launched the ex-Google community, [Xogler.co](#) which has 10,000 members after he left Google in 2015 and the Xogler Investment Syndicate and Fund.

He's invested in over 70 start-ups. Chris helped instigate Sydney High's Silicon Valley Tech Tour in 2019 and arranged visits to companies like Google, Tesla and Twitch/Amazon. He compiled the book [Navigating Your Career: A practical career guide for job searching and breaking into tech](#) to help students understand what are the career opportunities in tech and how to network your way to your dream job.

Paul Harapin (1983)

Head of Asia Pacific & Japan, [Stripe](#)

Paul finished at High in 1983, having represented in both Rugby and Cricket. He also studied 3 Unit Latin and Ancient Greek, following his passion and then went on to study Economics at the University of Sydney.

Paul has significant experience in the technology sector, having started various companies across the Pan Asian Region over 30 years. These include two of the most successful software companies in history, VMware and Tivoli Systems, taking both from start-ups to major industry players in our region. Recently he was Senior Vice President of Domo, a leading data analytics platform, building the company from a single employee to a 5 Country presence across Asia. Prior to this role, Paul spent 9 years with the VMware Corporation, building VMware in Australia and then across APJ, the last 18 months being Vice President of VCE, a joint venture VMware undertook with CISCO & EMC.

Paul has been twice voted one of the most influential people in the Australian technology Industry by SmartCompany.com

Paul also works actively in the not for profit sector and was until this month Chair of The Banksia Project, is a Board member for the Sydney High School Foundation and President of the Old Boys Union. Previously he was Chairman of the National Adoption Awareness Week, and is also father to four busy children, with his wife Diane, a SGHS Old Girl, and one of his children Tyler, graduated High in 2019.

Kiril Mickovski (2008)

Senior Manager, Finance - [Afterpay](#)

Kiril graduated from SBHS in 2008. While at High, he was part of the orchestra as well as the football, swimming and water polo teams.

He then went on to study Commerce and Economics at UNSW, majoring in Finance, Economics and Accounting. While at UNSW, he was Co-Head of the Australian Economics and Business Studies Competition in 2011, tutored for Introduction to Microeconomics and won first prize for Options, Futures & Risk Management.

After graduating, he joined PwC as an auditor for two years before joining Afterpay as their 6th employee and supporting Afterpay's growth from start up to an ASX 20 company. He is now a Senior Manager within Finance with a focus on Consumer Strategy.

Alex Apoifis (2000)

Partner & COO, [Blackbird Ventures](#)

Alex Apoifis is a Partner and the Chief Operating Officer at Blackbird Ventures. He has 15 years' experience in the financial services industry, notably as Partner and Chief Operating Officer at Blackbird Ventures, Chief Operating Officer at Auscap Asset Management, in investment banking and institutional equities at J.P. Morgan in Sydney and London and as a capital markets lawyer at Baker & McKenzie. He holds a Bachelor of Business (with Distinction)/Bachelor of Laws from the University of Technology, Sydney.

Alex attended High from 1995-2000, following in the footsteps of his brother who was there 1993-1998. He was Vice Captain of the School in 2000 and played in the 1st XI Football from 1998-2000. In both '98 and '00 for the last game of the season they went to Newington needing to win to walk away with the premiership. Both times they came up just short. The 2000 game haunts him to this very day, 21 years later!

Anton Mazkovoï (2003)

[Atlassian](#)

[Anton Mazkovoï](#) graduated from Sydney Boys High in 1997 and completed the Co-Op BIT degree at UNSW. After spending a year building the Qantas website in 2003 he joined a 2 person start-up called Atlassian, a now multi billion dollar company, where he spent the next 11 years on a wild adventure that is life in a rapidly growing tech start-up.

Anton is passionate about building world-class software engineering teams and making globally renowned products. Throughout his career building SaaS, mobile and on-premises products, Anton has played a role in helping young companies such as Atlassian, SafetyCulture and IRESS and now CIM to grow and shape a business that contributes to improving the environment.

Training at Home Updates

Hello everyone, I hope you are doing well.

Currently we are in the **Athletics** season, I have added another general preparation running program to the 'Athletics' Module for students to access and implement/use in their training schedule.

I have also added some **skill development programs** for a few sports which are in the 'Training at Home' Module. This is in addition to the training at home programs.

On Monday 23 August (Next Monday) at 3:20pm I will be running a live at home training session through Conferences.

Participants will need:

- to be in training attire
- have floor space long enough to lie down with hands above head
- ceiling high enough you can reach hands above head

Weights room members are encouraged to seek out my help through the Weights Training CANVAS title or directly. So far I have been able to provide technique analysis (through videos), program design/advice, equipment purchase advice etc.

All the best

Kurt Rich

MIC Athletics

Training While in Lockdown

Hopefully everyone is staying active during lockdown. I ask all rowers to go on the Rowing CANVAS page and complete three of the at home workouts per week. There are five guided videos for each workout and they can be done in most rooms.

Season Schedule (COVID pending):

Please checkout the season schedule on the google sheets below. Obviously, we don't know when we will start but there is a guide for when we do start.

<https://docs.google.com/spreadsheets/d/1csEJFOoFRVNOxbYIQUAvai8ehhq5w4G9jVEVHOvMsho/edit?usp=sharing>

The Outterside Centre Renovations:

A huge thank you to the Sydney High Foundation for pursuing renovations at the Outterside Centre during this winter. It was made possible by the tireless work of the rowing committee President Leslie Cheng. Leslie arranged all the trades people and ensured the renovations occurred during this off season.

HIGH SAILING

We may not be able to get on to the water yet, but we can still look upon the joy it brings.....

A Student Perspective

How did you get involved in sailing?

I first got involved with sailing when I was in year seven and my mother encouraged me to try a sport which was unique and fun. Before coming to High, I didn't do much sport, so the Saturdays spent racing other schools in a boat was a pleasant surprise. At first, I found sailing to be quite tricky. A sailor needs balance, strength and a calm mind to rule the wind and waves. Unfortunately, I didn't have either of these, but I persisted with the hardships and adapted to overcome them and ultimately make myself a better sailor.

What do you like about sailing?

Sailing is, hands-down, one of the most exhilarating sports. Although you rely heavily on your crew/skipper, it can be great fun when you surpass others with flying speeds and holler sea shanties and other quirky tunes at the top of your lungs. It's especially fun on days where there is no wind. On these days, you get to sit back, relax, and take a good look at the beautiful harbour around you. You can lay your head on the bow of the boat, close your eyes, and take a moment to think about everything going on in your life and to reflect on yourself and the piles of homework you have left to do.

Share a special/favourite Olympic moment

Matt Belcher and Will Ryan's outstanding performance in the men's 470 sailing race served as inspiration and motivation for a young sailor as myself to better myself in training and on racing days. The duo's port tack start behind the fleet gave me inspiration to try new strategies and to find what works best with my skipper. I believe that, by watching over Olympic replays of any sport, we can gather new tips and tricks which will help us with our sailing and give us more confidence.

Final Word

I encourage all students who do not participate in GPS sports, to give sailing a try. The community at Sydney High and Woollahra Sailing are friendly and always happy to help. There are a multitude of coaches who can give personal feedback to improve and you won't be thrown in the deep end because the Sailing program at High, will bring you gently out to sea.
