EDITORIAL

THE ACTING-HEADMASTER

Mr. P. W. Hallett, B.A., whose appointment as Acting-Headmaster during Mr. J. H. Killip's absence on leave, was received with great pleasure by the staff and the School, attended, as a boy, the Fort Street Model Public School. This school is now, of course, the celebrated Fort Street Boys' High.

After a period at the Teachers' College and the Sydney University, Mr. Hallett was appointed as Assistant-Master at Newcastle, Maitland Boys', Wollongong and Canterbury High Schools. He was then promoted to Newcastle High as Master of Mathematics and, subsequently, in the same position to Parramatta and Sydney Boys' High Schools, the latter in January, 1927. On Mr. W. A. Moore's retirement in 1935, Mr. Hallett succeeded him as Deputy-Headmaster.

OBITUARY

Dr. J. Eli Webb

After an operation in February, Dr. Webb's condition was satisfactory. However, he suffered a relapse and died soon afterwards.

Dr. Webb—who was 51 years of age—was U.A.P. member for Hurstville in the Legislative Assembly. For many years he had been associated with public affairs—as an alderman, as a mayor, as a member of the St. George County Council, and as a member of the local Chamber of Commerce.

After leaving Sydney High School, he obtained the double medical degree of M.B., Ch.M. at the Sydney University. The *Record* extends to Mrs. Webb and her two sons the sincere sympathy of the School.

JUDGE MOFFITT

Mr. H. W. Moffitt has been appointed by the Executive Council to be a Judge of the Workers' Compensation Commission.

Judge Moffitt was formerly a school teacher, and was born in the Shoalhaven River district. After working on the land until he was 20 years of age, he entered the teaching service, and later obtained the degrees of B.A., M.A., and LL.B. at the Sydney University, and a first-class certificate of the Department of Education. He

THE RECORD

filled the position of English Master at Sydney High School for five years till 1923, when he resigned to go to the Bar.

He introduced the staging of Shakespearean plays with High School boys as actors at various schools. He was a competent black and white artist, and contributed to *The Bulletin* and other journals. He specialised in drawing aborigines, bush characters and horses, his impressions having been gained by his experience on the land.

FAREWELL DINNER TO THE HEADMASTER

On Tuesday evening, February 14th, the Staff tendered to Mr. Killip a farewell Dinner at the Hotel Plaza.

It was a pleasant informal party, and a convivial spirit prevailed. The Deputy-Headmaster (Mr. P. W. Hallett), after the Loyal Toast, proposed the toast of the evening, and referred to his long association from time to time with Mr. Killip since student days, and wished him and Mrs. Killip *bon voyage*.

"QUO VADIMUS?"

Whither are we tending? The age in which we live is witnessing events, the very magnitude of which is staggering the national consciousness. Never before in history have two powerful sovereign States been absorbed by an unscrupulous neighbour under threat of extinction in such a brief period of time. We, in this distant outpost of civilisation, are watching the grim drama being enacted in the Old World; and, whilst speculating as to the outcome of the tragedy, find ourselves lost in a maze of bewilderment and perplexity.

We, of the democratic States, pride ourselves on our liberty and freedom of outlook, and rightly so, too; but we must beware that democratic principles do not lead to an inertia of mind and a weakness of will power, that will tend to paralyse our very life. Procrastination and inability to come to a quick decision seem to be growing in our midst, and, indeed, unless we brace ourselves, will become national characteristics. This is notoriously true of officialdom. How often do we find officialdom unable to make up its mind, unable to come to a decision, unable even to attend to routine correspondence without a maximum of delay! Matters of importance will be "duly considered," or will receive "earnest consideration." How different are things in certain other countries! A decision is reached in a minimum of time, and in the space of a few hours becomes an accomplished fact.

It has become a commonplace to say that England "muddles through"; and the fact that she usually muddles successfully, due to certain moral qualities which distinguish her people from those of other nations, should not be a source of pride as it seems to be, but should make us realise what a power for good this Empire would

THE RECORD

S.H.S. SWIMMING CARNIVAL.

K. BARET (left), receiving congratulations from L. FOLEY (who was second), after winning the 100 Yds. Senior Breaststroke Championship. Baret won six out of eight senior championships, and came second in the other two.

be, if, to those superior moral qualities of ours, were added those essentials of quick, sound judgment, and lack of irresoluteness that distinguish certain other types of thought. Only recently the Premier of Queensland remarked, concerning the Australian High Commissioner, that it was indeed refreshing to meet a man who was able to make up his mind without undue delay. Shakespeare, indeed, should have made his Hamlet a Britisher, but perhaps he thought the thrust would be too obvious. German authorities are now agreed that, had the British Cabinet spoken its mind seven days sooner in 1914; no Great War would have resulted; but the policy of consideration, procrastination, and failure to commit oneself brought a terrible aftermath. However, the recent utterances of the British Prime Minister would indicate that the lessons of twenty-five years ago are being slowly learnt.

And how does all this concern you boys of this great school? You belong to one of the greatest schools of this land, and from you should come the leaders of the next half century. Will you be found amongst those ready to face up to the questions of the day, or will you be content to sit for ever on a fence? When mathematics, latin, and your many other subjects have faded into the shadowland of memory, the qualities of courage, determination, decision, withal justice, which this school endeavours to inculcate, will lead you to realise that he who would follow the gleam must be prepared, if necessary, to live not safely unto himself, but dangerously unto mankind.

THE RECORD

*O young Mariner,
Down to the haven,
Call your companions,
Launch your vessel,
And crowd your canvas,
And, ere it vanishes
Over the margin,
After it, follow it,
Follow The Gleam.*

F. A. ELGAR.

THE SCHOOL COUNSELLOR

Parents and visitors have been interested in the word COUNSELLOR which appears on the door of one of the small rooms at the back of the hall. Let me try to answer their unspoken query. "Who is the counsellor?"

Counselling is an institution that Sydney High School can partly take the credit for incorporating into the School system of New South Wales. As early as 1933, a School Counsellor was unofficially taking his part in this School's organisation. The work of this Counsellor, and an article by him published in the *Record* for July, 1935, interested the Director of Education and, at the Secondary Teachers' Conference of that year, he announced that official counselling was to become an important and integral part of the School system.

This year there are attached to the staff of this School two counsellors—the School Counsellor, who is a part-time teacher, and whose duties are confined almost entirely to the care of the pupils already in the School; and the District Counsellor, who is mainly concerned with the pupils in the feeder primary, and Intermediate High Schools. The District Counsellor sees that the right pupils come to the School, and the School Counsellor sees that, when they are once in the School they receive the right treatment.

Having explained the main functions of those two officers, we will now consider what the School Counsellor has done, and what he can do for *your boy* with your co-operation. In a school the size of this, it is understandable that the individual touch tends to be crushed under the weight of mass organisation. To overcome this tendency the Counsellor collects, concerning each pupil, as much personal information as he can and, abstracting that information which experience has shown to be valuable, passes it on to the class teachers. He comes to know each pupil, perhaps better than the parents themselves, and can suggest to the class teachers the most beneficial methods of handling the pupils concerned. The School Counsellor acts in the School in the place of the parent, but he has the added advantage of having sound psychological training and a detailed knowledge of the School organisation.

SCHOOL SWIMMING CARNIVAL.
Winners of the Junior and Senior Cups.
Left to Right: L. Corkery, K. Baret.

In this capacity as guidance officer, the School Counsellor has aided in the adjustment of new pupils to the high school conditions and, from time to time, smoothed over difficulties that have arisen in the relationship between teacher and pupil. He has suggested the alteration of courses of study, the order in which subjects are studied, the methods of studying the various subjects. He has ensured that instructions, rules and regulations are expressed concisely and clearly, so that no misunderstandings can arise to the detriment of the pupils. He has seen that the pupils do not meet new types of examination papers unexpectedly, and that, in the judgment of their progress, due allowance has been made for absence, illness, home conditions, and other factors that seriously affect examination results. As a result of all these activities, the rate at which a pupil passes through the School has been accelerated. The repeating of classes has now become the exception rather than the rule. Only a very small minority of the pupils now fail to complete their Intermediate in three years and their Leaving in five years.

The School Counsellor has also been instrumental in enabling pupils in the upper school to take certain combinations of subjects which are more in keeping with their intellectual needs or vocational aims. Parents may recognise the needs, but the Counsellor's knowledge of the School organisation renders him capable to determine how this need can be satisfied without disturbing the rest of the School. The introduction of a scientific German course this year for certain pupils who are specialising in science is an outstanding example of the work that this School is doing to satisfy the individual needs of its pupils, in spite of a rigid examination system.

THE RECORD

As a result of much study, the School Counsellor has made himself familiar with the requirements, prospects and training for most of the occupations that are filled by ex-pupils of this School, and this knowledge is readily available to all pupils and parents. In addition, the Counsellor gives throughout the year a large number of addresses of a vocational nature that not only aid the elder pupils to decide what occupation they wish to aim for, but also furnishes them with a clear understanding of what they will be expected to do in such an occupation, and how they can reach it. The collected personal information regarding each pupil enables him to give sound individual advice. From time to time special tests are given to facilitate the giving of such personal advice, but, unfortunately, this side of the work is handicapped by lack of finance.

From this brief summary of some of the many activities of the School Counsellor, it must be seen that much of his value depends on the co-operation of the parents. Without their co-operation, the Counsellor cannot become aware of the necessary personal information to enable him to help the pupil, nor can he know of the many difficulties and problems that arise in the educational life of the nearly 900 boys that form this great School. Parents who desire that their child should have the benefit of "counselling" should see that the Counsellor has the necessary personal information, consult him themselves when they think it necessary, see that their sons consult him on their difficulties and, above all, remember that the Counsellor is a trained adviser, not an oracle or a judge.

I. D. RENWICK.

PERSONAL

The Headmaster, Mr. J. H. Killip, *B.A.*, will be absent on leave until February, 1940.

Mr. P. W. Hallett, *B.A.*, has been appointed Acting-Headmaster during 1939.

Mr. F. A. Elgar, *M.A.*, has been appointed Acting-Deputy Headmaster during 1939.

Mr. E. G. S. Evans, *B.A.*, is Acting-Master of Mathematics.

Mr. J. E. Hagan, *B.A.*, from Kempsey High School, has joined the English staff.

Mr. G. L. Reid, *B.A.*, has been promoted to the position of Deputy Headmaster at Taree High.

Mr. H. Edmonds, *B.A.*, from Newcastle Boys' High, has joined the Modern Languages staff.

THE RECORD

Mr. R. W. Caldwell, B.A., was transferred to Canberra High as Master of Modern Languages.

Mr. S. Carson, B.A., was transferred to Armidale High.

Mr. G. A. Smallman, B.Sc., has joined the staff of North Sydney Junior High.

Mr. A. Naylor, Music Teacher, was transferred during the Xmas vacation, probably to Hurstville.

Mr. R. F. Goode, B.A., from Junior Newcastle Boys' High, has joined the Mathematics staff.

Mr. T. A. Pearson, B.Sc., from North Sydney Boys' High, has been attached to the Science staff.

Mr. P. Klineberg, B.A., has been appointed District Counsellor.

Mr. J. Dabron, from Homebush Intermediate High, has been appointed Music Teacher.

Mr. R. V. von Bertouch, of the University of Tasmania, was attached to the staff for some weeks in February to observe physical culture training.

Mr. S. Wick, B.A., was transferred in April to Dubbo High School, Mr. L. Pearce, B.A., at the same time being appointed from Dubbo to Sydney High.

Mr. Grahame Bourke, of Brandon, has received advice from the Pharmacy Board of Queensland of his success in the recent final examination. He was educated at Sydney High, and received a very creditable mark in the Intermediate examination.

Mr. D. R. Blakemore, Master of Modern Languages, has been appointed Master-in-Charge of the English Classes for Refugees at Paddington.

NORMAN DOCKER

The School Captain

The *Record* congratulates Docker on his elevation to captaincy of the School. There were various indications last year that Higham's mantle would fall on Docker this year, and the appointment was generally gratifying.

The Captain's interests are comprehensive: Vice-Captain of the Rowing Camp, member of the Second Fours, a front rank debater, Football, Athletics and Library Committee. Last year he was a member of the Second Four, Junior Shot Putt of S.H.S., and a member of the Debating Team who won the G.P.S. Louatt Shield.

55th ANNUAL SPEECH DAY, 15th DECEMBER, 1938

The prizes for 1938 were to have been presented by the Minister for Education, The Hon. D. H. Drummond, M.L.A., who, through pressure of official duties, was unable to be present. His place was filled, however, by a distinguished Old Boy, Sir John McLaren, who amusingly referred to the Choir's rendition of the carol, *Silent Night*, being in sympathy with his own wishes as regards speech-making. He congratulated the Headmaster and staff "on the wonderful service rendered the community in the past year. This was only possible by the co-operation of the boys of the School."

The Headmaster welcomed Judge Nield (who acted as Chairman), two of the "original vintage," Messrs. Paradise and Alcorn, and two former Headmasters, Messrs. G. C. Saxby and W. F. McMullen.

Mr. Killip in his Annual Report traced the history of both Schools, and contrasted the former environment with the beautiful sites of the present buildings. In a comprehensive survey of the academic, cultural and sports activities for the year, he referred to the dangers of rigidity. It was proposed to place a new emphasis on physical fitness and efficiency, and he considered that Defence should be the order of the day. He felt that there were immense possibilities in the development of School Cadet detachments. An improvement in deportment, carriage and smart appearance of the boys was evident. The School's benefactors and the P. & C. Association had been generous. New curtains, public speaking amplifier service, etc., were in use. There were signs of mounting interest everywhere. Mr. Killip referred sympathetically to the demise of Mr. Oliver, late President of the Parents & Citizens' Association. He closed on a personal note. After nearly 35 years in the teaching service, he had been granted long service recreational leave in 1939. He felt confident that all would give to Mr. Hallett unqualified and unstinted support.

Judge Nield said it had been an excellent year for the School. There was nothing to fear as far as the results of the external examinations recently were concerned. They were proud to review the results of the excellent year for the School in rowing, cricket and athletics.

Current international affairs in 1938 had been so much before them that he was pleased to learn that steps were being taken to keep the boys in touch with matters by the method of notice boards mentioned by the Headmaster in his report. The Judge drew an interesting contrast between the international position of 1914-18 and

THE RECORD

1938. Speed was a very real danger to-day. In September the ultimate fate of Czechoslovakia was not practicable (according to periodicals like the *English Spectator*); but by the time these English periodicals had reached Australia, it was an accomplished fact.

There had been a considerable advance in recent years in medical and scientific knowledge. The Royal College of Physicians had directed their minds to the great progress in preventive medicine, so that the expectation of life had been considerably increased. This was a blessing; but one aspect was its effect in another sphere. The lengthening of life frequently brought about results that were undreamt of. Finance was in the hands of older people than formerly, people who were more concerned with safety and security than with adventure. Political life was in the hands of older people than was the case years ago. There was not that youthful, eager outlook that political life needed. Young people were kept out of public life. Youth was losing its desire to share in public affairs. It was for the youth of the School to apply their minds to this question if this democracy was to be saved. An energetic, vigorous outlook—which can only be a youthful outlook—was required.

Sir John McLaren then presented the prizes.

Special prizes were presented by Judge Nield and Messrs. H. B. Edwards, G. C. Saxby and R. W. Campbell, who addressed the assembly briefly.

An Honour Cap was presented to the School Captain, R. Higham, by the Captain of the Girls' High School, Mr. P. W. Hallett (Deputy Headmaster) stating that it was the first in five years to be awarded.

The musical programme was in the hands of Mr. A. Naylor, and the School Choir sang part songs and carols with expression, and their efforts were well received.

Higham proposed a vote to the visiting speakers, and the proceedings terminated with the National Anthem.

GENERAL ASSEMBLY, 13th FEBRUARY

Speaking sympathetically of the death of Pope Pius XI, the Headmaster referred to the importance of Papal influence in international and Italian affairs. He urged students to read the news columns on the question of the election of the new Pope, and stressed the long history of famous occupants of the Holy See.

On behalf of Mr. C. Schrader, Mr. Killip presented Reilly (2D) with a Cricket Bat for being the first boy to score a century during the season. In 1937, Mr. Schrader's generous gift was won by McCarthy (2B). No cricketer in 1938 reached the requisite number of runs to win the prize.

EFFICIENCY

At the General Assembly on February 20th, the Acting-Headmaster referred to the thoughtless practice of numerous boys in cross-

THE RECORD

ing the front lawn. He appealed for a display of public spirit, and made it definitely clear that, in future, the paths must be used.

He also deplored the finding of milk bottles and papers about the grounds from time to time. It was their school, he said, and he insisted upon the grounds being kept in order.

After all, the slogan, "Be tidy!" betokens mental efficiency.

He further emphasised the mental inefficiency of various boys who left swimming classes at the baths on Wednesday sports days without having their names marked in the roll. "Safety First" precautions demanded that rules should be obeyed in this regard, and boys who refused to comply would not be allowed to attend swimming at all.

THE SCHOOL UNION

On February 2nd the Headmaster presided over a meeting of the staff held for the purpose of electing officers for 1939.

In view of the Headmaster's projected departure abroad, Mr. Hallett was elected President; Vice-Presidents, Messrs. F. A. Elgar and O. S. Smith; Honorary Secretary, Mr. E. Bembrick; Honorary Treasurer, Mr. O. A. Taylor; Auditors, Messrs. E. G. S. Evans and H. L. Watkins.

Mr. J. R. Towns moved a vote of thanks to the retiring officers, particularly to Messrs. Bembrick and Taylor for their work for the year. Mr. Killip, in support, stated that all had in mind the splendid work performed by the two gentlemen mentioned by Mr. Towns. He himself shared in the admiration of the systematic manner in which they had carried out their onerous work. "I should like to assure them," he said, "that the bulk of the credit goes to them for their work for the Union."

ANNUAL MEETING OF THE S.H.S. UNION

On February 3rd the Headmaster presided at the Annual Meeting. The Hon. Secretary submitted the Report for 1938, which referred to a deficit of £98, due, principally, to expenditure on top-dressing two tennis courts, the June *Record*, advance to the Cadet Corps, and other items of exceptional interest. Concluding, he wished the President (Mr. J. H. Killip) a happy tour, and the Acting-President (Mr. P. W. Hallett) a successful term of office. The Hon. Treasurer (Mr. O. A. Taylor) read the Statement of Receipts and Expenditure, which was followed with close interest by the School, approximately £2,500 having been received and disbursed during the year.

Mr. Hallett spoke in support of the motion of the adoption of the reports moved by the School Captain, Docker. In congratulating the Secretary and Treasurer, he referred to the magnitude of their work, and to the necessity of the School's co-operation in assisting them. Mr. Killip said he desired to be associated with Mr. Hallett's

THE RECORD

remarks, and referred appreciatively to the work of Messrs. Evans and Watkins as auditors. He then submitted the names of the officers for 1939 elected by the staff on February 2nd. Bale (4th year) was elected Assistant-Secretary, and Docker (as School Captain), and the prefects were confirmed in the positions held by them since the end of 1938.

"BREAK-UP" CONCERT, DECEMBER, 1938

This impromptu affair was a commendable effort. Organised by Weingott (4B)—hot from Cadet camp and a successful concert there—the entertaining series of snappy humorous sketches, an astonishing Wonder Man named Haji, a prima donna with suicidal tendencies, extreme infancy induced by an overdose of monkey glands, a Viennese quartette, racecourse ethics, and various other items, comprised a programme which gave amusement to all. Reid (2E) conducted successfully a freakish "Swing" Band, which played numerous bright and popular numbers. Weingott showed outstanding talent in his impersonation of "Movie" stars who, apparently, were immediately recognised by the audience. H. Harris (2A) played some Mozart with his usual excellent expression.

A collection, in aid of the Stewart House, amounted to £2/13/6.

FAREWELL SCHOOL ASSEMBLY TO THE HEADMASTER

On Wednesday, February 15th, the School assembled to bid farewell to the Headmaster prior to his departure on Recreational Leave of Absence. Henry Harris (3A), on behalf of the Lower School, wished Mr. Killip an enjoyable vacation and a safe return. The School Captain (Docker) said he had great pleasure in representing the Senior School on that occasion. He expressed regret that the Headmaster would be absent during Fifth Year's final year, and he extended his good wishes to Mrs. Killip, and hoped that both would have a very enjoyable trip.

Mr. Hallett said he felt on such an occasion that, apart from the boys' good wishes, there should be also a general farewell. He would miss Mr. Killip, whose departure would mean extra work for him. Much had been done for the School by Mr. and Mrs. Killip. He translated a Latin quotation, and applied it as a suitable commentary on Mr. Killip's work for the School: *If you are looking for a monument for me, gaze around the School.* The P. & C. and Mothers' Auxiliary had been particularly stimulated by their influence. Mr. Hallett concluded by stating that he desired to be associated with the motion of the School Captain.

Docker then, on behalf of the School, presented to Mr. Killip a pair of binoculars as a "token of remembrance of your friends awaiting you at the School when you are in foreign lands."

Responding, Mr. Killip thanked them for their remarks, and for the tangible token of their esteem. It would be a reminder of those back in Australia. Mr. Hallett had been kind in his remarks, even as regards the reference to himself as being a hard man. He thought that not only should mind and body be trained, but also that the spirit should be considered. They should aim to send out into the community boys of character, with a sense of appreciation and responsibility. Whatever had been done for the School in his name was only possible because he had not been let down by the pupils, especially in their efforts to stimulate their parents' support. He also thanked them for all that had been said and done, and for their remarks in regard to Mrs. Killip. He had confidence in Mr. Hallett and Mr. Elgar, and expected the School to have a very good year.

ANZAC DAY

Anzac Day was commemorated in the Assembly Hall on Monday, April 24th. At noon the assembled School stood, silent and reverent, as the roll of drums announced the entrance of the cadets at slow march in two files in procession towards the dais, on which the Acting-Headmaster and staff awaited them.

After the singing of Kipling's *Recessional* hymn, Mr. Hallett addressed the School. They had just sung, he said, Kipling's ode, *Lest We Forget!* He thought that that must be the keynote of their Anzac Day celebration. What must be the thought of the men who that night would say, "Gentlemen, the toast is Anzac!"? Probably they would think first of the prevailing spirit of those days that it was "a war to end war"; "a war against aggression," and the School must think of them in these critical times. The Post-war Treaty and the League of Nations seemed to suggest that the Great War was a war to end war.

Their thoughts would go out to the 60,000 who paid the supreme sacrifice with that end in view. There were boys at Sydney High School whose fathers fell for that cause, and to them the School extended its sympathy. They thought, too, of those still suffering in hospital, and to them their sympathy was also extended.

New South Wales had sent a contingent to the Soudan in 1885, and the Australian colonies in 1899 had despatched contingents to the South African War. But in 1914 it was the first occasion in which Australia, as a nation, had stood side by side with the other nations of the world for certain ideals. After the declaration of war on August 4, some of our men had gone to New Guinea, but in November, 1914, 20,000 had sailed for the other side, and eventually over 300,000 men had gone abroad.

To-day they were celebrating April 25th, 1915, the first Anzac Day, Anzac—the five letters standing for "Australian and New Zealand Army Corps." Last year the Headmaster had outlined the campaign at Gallipoli, and he had also referred to the remarkable evacuation

THE HEADMASTER'S SPECIAL CARE—THE SCHOOL GROUNDS.

Top (Left): Cleveland Street Frontage, Hibiscus Hedge, planted, Sept., 1936;

about twelve months later, an evacuation which would go down in history as a wonderful military feat.

Subsequently, the Anzac Desert Column had gone to Palestine. They had been among the first men to enter Damascus and Jerusalem. Other divisions of Anzacs had gone to France, and were well represented on the Western Front, Pozieres standing out among numerous engagements.

In 1918 General Monash had succeeded General Birdwood in charge of the Australians. In that year Australia was in the thick of the fight. At Villers Bretonneux their operations had marked the turning-point of the war. To-day they celebrated two days. It was April 25th, 1918 (quoting an English authority) that the operations on the Western Front had marked the turning-point of the war, and April 25th, 1915, when the historic landing at Gallipoli had taken place. And it was the men associated with those exploits whom they were honouring that day.

After the War the Australian Government had purchased ten acres near Villers Bretonneux, and last July His Majesty the King had unveiled a memorial in honour of the Australian forces. He had said, "It is a great privilege to me to unveil this noble monument, and, in the name of Australia, I welcome the presence among us of the President of the French Republic. On this monument is an inscription telling us, and others who will visit this hill in years to come, that it

THE RECORD

perpetuates the memory of the Australian Imperial Forces in France and Flanders, and 11,000 of them who fell in France and had no known graves."

After the School had turned to face the Roll of Honour, Sergeant-Major Mack Reid placed beneath it a commemorative laurel wreath adorned with the School colours. Buglers Humphreys and Watson played *Reveille*, and the *Last Post*, and the National Anthem concluded the ceremony.

INTER-SCHOOL CHRISTIAN FELLOWSHIP

It cannot be denied that the spiritual life of our youth deserves attention equally with the temporal, nor can one deny, after coming into contact with those who attend the I.S.C.F. meeting at Sydney High School, that there are many at our School as zealous towards the things of God as they are towards the things pertaining to man.

We are kept in contact with our mother body, the Children's Special Service Mission, by means of frequent hikes and camps, which many from our branch have attended.

The co-operation of the Acting-Headmaster, Mr. Hallett, and of the members of the staff, is deeply appreciated. We are especially thankful to Mr. Elgar, Acting Deputy-Headmaster, for an address given by him on 4th April.

The nature of our meetings is entirely interdenominational, our only essential beliefs being in the infallibility of the Bible as the Word of God, and in the saving and sanctifying power of Jesus Christ.

Our meetings are open to all, and all are invited to attend.

DONALD A. FERGUSON (5B).

EXHIBITIONS TENABLE AT THE UNIVERSITY

Sydney High School won 38 Exhibitions on the results of 1938. This constitutes a record. Looking back, the figures are as follow:— 1926, 11; 1927, 12; 1928, 12; 1929, 15; 1930, 13; 1931, 18; 1932, 19; 1933, 18; 1934, 15; 1935, 19; 1936, 10; 1937, 14; 1938, 20.

S.H.S. PARENTS AND CITIZENS' ASSOCIATION

Careful pre-planning and intensive organisation by the officers and executive of the Association, and the co-operation of the Principal, Mr. J. H. Killip, and his staff, the Ladies' Auxiliary, and generous friends of the School, combined to make the year 1938 a notable success. Our nett financial receipts reached the record figure of £809, being £232 greater than the previous best of £577 in 1930. The nett expenditure on the various activities of the School amounted to the record of £781, being £220 greater than the next best of £561 in 1929. These figures are most gratifying, and a fitting reward to those members who worked so hard and with such enthusiasm in the interest of the School during the past year.

THE RECORD

The year opened on the 17th March, 1938, with a well-attended meeting of over 100 members, when the usual election of officers took place. There were 12 Executive Committee meetings held during the year, which were well attended by all its members. There were 10 General Monthly Meetings held, at which the attendances were rather disappointing, as 800 notices are issued to the boys each month notifying parents of these meetings.

Now, boys, we ask you to be a cog in the wheel of this organisation: see that your parents duly receive all notices and appeals; do your best for the School which is doing its best for you; by helping us you are helping yourselves!

A Special Executive Committee Meeting was held on 31st March, 1938, when the following programme of social fixtures for 1938 was drawn up and agreed to:—30th April: "Head of River" Dance; 5th

The Camphor Laurel near the Incinerator.

May: Market Day; 28th May: Celebration Dance; 8th June: School Concert; 18th June: Prefects' Dance; 23rd July: Football Dance; 20th August: Athletes' Dance; 17th September: Cricket Dance; 8th October: G.P.S. Dance; 3rd December: White Dance. In addition, there were a number of card parties and social functions, organised and conducted by the Ladies' Auxiliary, all being most successful, their most outstanding success being "Market Day," when £201 was realised. To these ladies we are greatly indebted for their untiring efforts.

The monthly dances were most enjoyable functions. We are

THE RECORD

pleased to say there was an increase in the attendance over the previous two or three years, the best being the Regatta Dance, when there was an attendance of about 700. At the remainder, there were from 250 to 400 present. We will be very pleased if we can increase these numbers by another one or two hundred during 1939.

We wish to record our appreciation and thanks to the following: Mr. J. H. Killip (Headmaster), Mr. P. W. Hallett (Deputy Headmaster), Mr. H. B. Edwards (President), the retiring President and Hon. Secretary of the Ladies' Auxiliary, Mrs. V. Samuel and Mrs. J. McRorie; also to Messrs. F. A. Elgar, T. B. Ingram, M. T. Lynch, G. L. Reid, O. A. Taylor, E. Bembrick, A. W. Stephens, W. E. Cummings, Capt. R. K. Wilthew—in fact, the whole School staff for their assistance and very great interest in the work of the Association. We are most thankful for the goodwill and this link which exists between the School and the Association. Without this co-operation, our efforts and activities would not have been carried through to a successful conclusion. We owe our thanks to Mr. O. W. Earl, our Hon. Treasurer, for the very efficient manner he has looked after our finances for so many years; also to Mr. and Mrs. Pemmell, the proprietors of the School Tuck Shop, for their kindly assistance, and to the ladies who have worked so hard to supply the supper at our monthly dances and debates; also lunch and refreshments at the G.P.S. cricket and football matches. It is to be regretted, however, that the brunt of this work is being borne by too few of these ladies, and we would be very thankful for a little more assistance for those who do this work so willingly and generously.

A review of the minutes of the meetings held during the year indicates that much valuable work has been accomplished by the Association, and through the combined efforts of the School. At many of the meetings there has been very helpful discussions by members on matters appertaining to the welfare of the School, and a great number of constructive resolutions have resulted.

The thanks of the Association for their keen interest and assistance in all our activities are due to our esteemed Headmaster, Mr. J. H. Killip, and Mrs. Killip, who have recently departed for Europe and America on an extended holiday till the end of the year. To them we extend our very best wishes for a very enjoyable and beneficial holiday. As Mr. Killip is so well known to us all, we know it will not be all holiday. Education in the various countries visited will no doubt claim a good deal of his time and, in looking forward to his return, we know that the boys and the School will gain many ideas and much knowledge that will be to their advantage.

It is with very great pleasure that we welcome as Acting Headmaster, Mr. P. W. Hallett, together with Mrs. Hallett, to fill the vacancy during the absence of Mr. and Mrs. Killip. Mr. Hallett's interest in the boys and the Association is well known to all, and we

THE RECORD

sincerely trust that we will be able to present to him the same fine record that we have just concluded in the past year.

The three main objectives the Association has in view this year are: the purchase of a new motor-driven lawn mower, renovation and painting of the basement, assembly hall, and main entrance of School, and a boat shed, which is badly needed to help the boys in their rowing. In regard to the latter, we have gathered certain information and facts, ready to place before the Minister for Education, who has promised to give this matter consideration. We are thankful to Mr. John Lee, M.L.A., for Drummoyne, the late Mr. John Waddell, M.L.A., and Mr. A. McWhinney, Senr., for their interest and work in this matter, and we hope that we will soon have something of a definite nature to place before members.

At the annual meeting held on the 16th March, 1939, the usual election of officers took place, which resulted as follows:—

President:

Mr. H. B. Edwards.

Vice-Presidents:

Mr. R. S. Betty, Mr. G. B. Leonard.

Hon. Treasurer:

Mr. O. W. Earl.

Hon. Secretary:

Mr. S. M. S. Phillips.

Auditors:

Mr. C. A. Fairland, Mr. W. E. Jones.

Executive Committee:

Mrs. W. Perry, Mrs. G. Kahn, Mrs. D. C. Wyke, Messrs. H. I. C. Dent, G. A. Wood, D. Levien, E. Baker.

A special Executive Meeting was held on 30th March, 1939, when a budget of revenue and expenditure for 1939 was estimated and agreed upon, and the following dates allotted for social functions:

22nd April—Regatta Dance.	19th August—Athletes' Dance.
5th May—Market Day.	16th September—Cricket Dance.
27th May—Military Cadet Dance.	7th or 14th October—G.P.S. Dance.
24th June—Football Dance.	28th October—Dramatic Evening.
22nd July—Prefects' Dance.	9th December—White Dance.
15th August—Father and Son Night.	

In conclusion, I might say the Association faces the new year with optimism, and feels confident of its ability to finance the works and requirements of the next twelve months.

The splendid traditions of this Association have been built up by a fine series of administrators in past years, and by the splendid financial support of parents, friends and Old Boys, and it is up to us to see that this fine record remains unbroken.

As the total receipts for 1938 were £203/7/-, this year's result of the day's trading must be very gratifying to the organisers, and to the ladies and helpers who were so busily engaged in the enterprise.

THE RECORD
ON BEING AUSTRALIAN

Sydney High School,
Moore Park,
14th April, 1939.

The Editor, *The Record*.

Dear Sir,

As a patriotic Australian, and an enthusiastic High student, I should like to say a word or two regarding our magazine. *The Record* is the magazine of a first-class Australian school, yet we seldom find appearing in it more than one article, poem or story on an Australian subject. I must except the last two issues, which were quite above criticism in this respect; but, generally speaking, *The Record* is filled with a lot of undesirable nonsense about Italian cities and African customs, Scotch festivals and Chinese pageants. Wherefore should this be so? Let us see, in future, some poems about lyre-birds, stories about Randwick, and articles about Australian glass-houses.

And, while I am on the subject, why the complete neglect of Australian literature in our High School English course? We have many essayists, poets and novelists who have produced works quite complicated enough to read for examinations. What more do the educational authorities want? If I could be sure that they read occasionally the magazines of their best schools, I would suggest a combined C.H.S. and G.P.S. literary attack on the present state of things. How can we be expected to know, appreciate and help to expand our own literature on truly Australian lines if we are not shown the road?

I am confident that whatever may be the defects of our educational system, it should be, first of all, and, in some aspects at least, Australian.

Yours truly,

W. T. BROOKS (5A).

[Correspondence on this subject is invited.—The Editor.]

— ★ —
OBITER DICTA

"When I was young and foolish, we were graciously permitted to love poetry. When we wrote our essays, it was pure delight to many of us to quote lines, the better to illustrate our meaning, from Shelley, Keats and Browning, and no one ran a reproving red pencil through them. Editors seemed to think that a line of sheer beauty, or a high and thrilling thought from an Olympian, spilled at random in a column, did no harm."

—*Ethel Turner, Australian Novelist (at Hornsby High, 1938).*

□
"The University viewpoint is that many students have been coming up too young to get the full benefit of what we have to offer them. We feel that if they had a free year at school away from the fear of examinations, it would be of inestimable value."

—*Mr. Justice Halse Rogers (at S.C.E.G.S., 1938).*

THE RECORD

Cleveland Street Entrance.
Moreton Bay Fig Trees at their best.

"Unless democracy has an energetic and vigorous outlook—a youthful outlook—there is not much hope for it."

—*Judge Nield (Sydney High, 1939).*

"I hope you will all have to earn a living, even if you have to scratch for it."

—*Sir John Latham, Chief Justice of the High Court (Knox Grammar, 1939).*

"I am satisfied that many boys attend too many picture shows. Frequent attendance at picture shows produced a state of mentality which retained little impression except in a blurred form, and induced the habits of being ready, at all times, passively, to be entertained. More entertainment of ourselves by ourselves, and not by screen actors and mechanical music, is a necessity if we are to be really cultured people."

—*Mr. A. K. Anderson, Principal of Scots College, 1939.*

"The old notion that the child should be trained to have complete possession of its faculties is now giving way to the new notion that it is quite enough if the child is trained to enable it to stay where it first finds itself. This is not progress, but retrogression and, if carried to its logical result, would mean a static and stratified social order. Culture, being a by-product of life, was like many other by-products. It often yielded a greater return than the parent industry."

—*Mr. R. Harvey, Principal, North Sydney High, 1939.*

THE RECORD

THE DEBATING SOCIETY

The society has held several meetings at which a fair amount of talent has been revealed among the new Fourth and First Year boys. Interest mainly centres at present on the choice of the team to represent the school in the first Hume-Barbour debate against Parramatta in June. Docker remains to us from last year's winning G.P.S. team; but the other two places are being keenly competed for by about eight boys, who have, at present, equal chances of being selected.

P. J. BARWICK.

★ XMAS CAMP AT SUSSEX INLET

The Xmas Camp was held for the full term of six weeks, and was overfilled the whole time. Many boys chose to stay for the six weeks. Several lads could not get places.

Camp routine was much as usual, and everything went along very happily. We were not much troubled by sandflies nor injuries. Care in treating bites of the first, and the use of sandshoes for the second, would cut out all troubles.

The weather for the first four weeks was very hot and dry; and, so, splendid for camping. The swimming and fishing were wonderful, and we were more on the ocean than ever before. The last two weeks were cold and rainy, with the result that both swimming and fishing fell off.

**WE SUGGEST THAT YOU TAKE A BUSINESS
COURSE, BUT NOT BY CORRESPONDENCE!**

You want coaching and supervision!

THE RECORD

Many excellent hikes were carried out and thoroughly enjoyed.

We played the annual cricket match against Wandandian, and were well beaten 301 to 191, owing to a brilliant knock by N. Watt (120 retired). For us, A. Smith made 88 n.o. in good style.

We had an unusual and unpleasant experience that none of the participants will ever forget—the Bush Fire. Only by persistent hard—very hard—work of all the campers from 9.30 a.m. to 7 p.m. without a break were the two camps saved from being completely burned out. The proprietors of those camps owe a deep debt of gratitude to the S.H.S. campers.

Towards the end of the time the wreck of a 50ft. launch on Cudimirrah Beach caused a mild excitement also.

All in all, the Camp was a great success. All boys worked in together very well, and we believe that the boys were much benefited by their experience.

RIFLE CLUB

The following are the results of the Club Competitions for year ending 1938:—

Annual Militia Prize Meeting "The Merris"

S.C.E.G.S.	1st
S.H.S.	2nd
S.G.S.	3rd

G.P.S. Premierships

The Scots	}	1st
S.C.E.G.S.		
Grammar		3rd
Newington		4th
S.H.S.	}	5th
The Kings		

The Annual Club Championship was won by Cadet Lieut. Z. Freeman with 132 points, C.Q.M.S. R. Won, with 131 points, being second.

Club Captain for 1939: C.Q.M.S. R. Won.

Club Secretary for 1939: Sgt. McWhirter.

CADET CORPS

The School Cadet Corps again increased their strength over previous years, the nominal roll totalling 132 as against 97 in 1937.

The attendance at Camp during December was a record for the Corps, 106 members attending the 10 days at Liverpool.

The Camp Guest Night was again a feature of the camp life, many visitors from town attending.

The visitors included the Headmaster (Mr. Killip), Mr. Hallert, President of the P. & C. (Mr. Edwards), Secretary of the P. & C. (Mr. Phillips), Lt.-Col. Hawkey, M.C., Mr. Freeman, Senr.

THE RECORD

DISCIPLINE

The exciting and serious mishap on Saturday, April 15th, when the High School launch caught fire during the University Rowing Club's Regatta, had, fortunately, a happy ending. The presence of mind of the owner of the launch in removing the petrol tank after he had failed to quell the fire, and the assistance of the odd craft in the vicinity in transferring the fifty passengers, prevented a major disaster.

The Acting-Headmaster congratulated the boys on their fine discipline during the crisis, and expressed gratification that there were no casualties other than a burnt overcoat.

LIFE-SAVING

An unusually large number of boys availed themselves this season of the opportunity for training at the Clovelly Rock Pool. Under capable and enthusiastic instructors they became one of the best squads the School has turned out. Favoured by pleasant weather, the squads found it easy to attain the required proficiency, and to pass the examination, confident in their valuable knowledge.

This note would be incomplete did it not make mention of the unremitting efforts of Mr. Black who, year after year, has instructed many boys in this very humane and essential work.

2nd Class Instructor	3	Intermediate Certificate	68
Elementary Certificate			6

I desire to avail myself of this opportunity of thanking, through *The Record*, all candidates for their exemplary application to the work and, in particular, the instructors for their efficient and systematic training of the squads in their care. Without their help the training of such a large number of boys would be impossible.

C. H. BLACK.

Appearance counts!

An Akubra Pure Fur Felt Hat will give you good service in all ways—Comfort, Looks and Extra Long Wear. Any smart shape and colour you like—a remarkable range.

Four Qualities:

Boomerang	-	19/6
Coolyta	- -	21/-
High	- - -	25/-
Superfine	- -	32/6

Both High and Superfine Qualities are fitted with "DUNKEIR" PATENTED LEATHERS—Grease and Sweat-resisting. An Exclusive Akubra Feature.

Bennie says:

"You're the architect of your own appearance. Put on the best roof—an Akubra!"

Punctuality — First Principle of a young man heading for Success

Waterproof
Dustproof

"Indestructible,"

85/-

This is the watch to keep you on time all the time. It's the "Indestructible"—a Waterproof, Dustproof, Knockproof Watch that's immune to the effects of magnetism, and that's warranted to give 25 years' service. It's a man's watch in every respect—good, smart appearance, easy-to-read, round dial, Chrome Case, with Stainless Steel back that won't tarnish. A timepiece with a heart—sturdy, accurate, reliable. Ask for it by name, "Angus & Coote's Indestructible."

It's ideal for school books

Smart, convenient, light and sturdy, the Globite School Case is made to stand the rough and tumble of school use. It weighs and costs less than leather. Its glossy finish is weatherproof. Its fittings are neat and strong and it has a handy metal lid stay. Globite School Cases are just the right size . . . 16 inches long. Ask to see one . . . feel how light it is!

GLOBITE SCHOOL CASE

Use a Globite Case, too, for holiday trips . . . for college or boarding school . . . all needed sizes available.

WHO TOLD THE BEE—

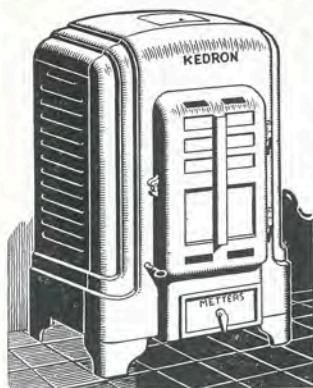

that it is a good thing to gather honey and put it safely away for future use? It is Nature's way—she permits no waste. What a lesson to those fortunate enough to gather money—even in very tiny pieces. Follow the example of the bee and save for the day of need.

REGULATION SCHOOL UNIFORM 37/6

Double seat & elbows give amazing long life!

The only firm that supplies the "Duble Life" school uniform is Palmers. This approved uniform is specially made with invisibly reinforced seat and elbows. In addition, there is an inside breast pocket, a tuck in the sleeves to allow for lengthening, and a fadeless school badge embroidered on the pocket. The knickers have double buttons, side straps, two side pockets, hip pocket, and are strongly lined with Ferguson's silesia. This smartly cut uniform is correct in every detail, and at 37/6 the value is exceptional. Sizes to fit boys 7 to 15.

LONG TROUSER UNIFORM 52/6

Correctly tailored in every detail from good quality all-wool material of the correct shade of grey. A fadeless School Badge is embroidered on the pocket. The trousers have sports top with side, hip and fob pockets and wide cuff bottoms. At only 52/6, the value is indeed outstanding. Sizes to fit boys 10 to 18.

Regulation School Ties only 1/9 at Palmers
Regulation School Socks, $\frac{3}{4}$, 2/6; full length, 2 11

FRIDAY NIGHT IS "FREDDO" NIGHT

Take Home 2 Bags

It's a tremendous success! Everyone agrees it's a great idea—EVERY FRIDAY NIGHT taking home 2 bags of MacRobertson's FREDDO Id. Chocolate Frogs.

One for the Kiddies

They vote Mac Robertson's Id. Chocolate Frogs the grandest-tasting of all chocolate. And how they love those delicious Freddo flavours—Milk Solid, Milk Peanut, Assorted Cream Filled, Milky, Fruit and Nut—and all the other Freddo chocolate flavours.

One for Cooking

The best way to buy chocolate. More weight for your money, and Freddos are Mac Robertson's famous quality chocolate—so deliciously "smooth." Remember next Friday night—and every Friday night—it's FREDDO NIGHT!

A SAUNDERS' WATCH is **Smart, Tough and Accurate**

To give complete satisfaction, a Young Man's Watch must be Accurate, Tough and Smart. Saunders have a Large Range of Watches, Specially Designed for Young Men. These Watches have Very Smart Chrome Cases on Tough Leather or Bracelet Bands. Accuracy is assured by the Guaranteed 15-JEWEL Lever Movements.

Prices from—CHROME, 21/-, 25/-, to 70/-; GOLD-FILLED, 50/- to £5/5/-; 9CT. GOLD, 80/- to £10.

MICROSCOPES AND CHEMISTRY SETS

There are few hobbies as fascinating and instructive as Chemistry and Nature Study. Saunders have a Fine Range of Home Chemistry Sets, containing Chemicals, Test Tubes, Bunsen Burner, &c.; and an 80-Page Book of 500 Interesting Experiments. Saunders also have Strongly-made, Powerful Microscopes at Amazingly Low Prices.

Chemistry Sets at 42/-
Microscopes 6/6, 8/6, 10/6 to 21/-

THE RECORD

SPORT

ROWING REPORT, 1939

To write the Rowing Report for 1939 is a very pleasant task, for this year we have a record to be indeed proud of. Out of six crews in training, only one was beaten by a crew from another school, and we entered crews in four regattas during the season. Sydney High School is upholding its fine rowing traditions.

Personnel of the Crews

The Eight	T. Kelly (cox).	Fourth Four
J. McCouat (bow).	D. J. Duffy (coach).	W. McBride (bow).
A. Mann (2).	Second Four	B. Gordon (2).

E. White (3).	G. Vagg (cox).	
G. Meldrum (str.).	S. Wick (coach).	

The Camp

The camp began at Drummoyne on January 23rd, one week before the opening of School, when the Eight and twelve other boys came into camp to begin the long, strenuous preparation for the G.P.S. Regatta on April 22nd. There was great keenness and enthusiasm throughout, and a determination to win, which produced excellent results.

School was regularly attended during the training period, breakfast and dinner being superintended by Mr. Redshaw, of Drummoyne, and lunch being taken at School. The 1939 camp was remarkably free from sickness, the only troubles being minor complaints.

Captain of boats was Eric Longley, and Vice-Captain, Norman Docker. These two boys were of great assistance in the smooth running of camp, and performed a difficult task in conscientious fashion.

Only one serious accident occurred, *viz.*, when two fours collided in the dusk, splintering the bow of one and damaging the riggers. In rough weather one of the fours was twice swamped, but suffered no serious damage.

THE RECORD

A new racing four was purchased, the *E. H. Oliver*, named in honour of the late President of the P. & C. Association, who had rowing interests so much at heart.

Our thanks and appreciation are due to the following:—To the coaches for their unselfish work; Dr. Winston and Dr. Hardwicke for their invaluable aid in keeping the boys fit and healthy; to Mr. Fairland, who checked the boys' weights every week; to Messrs. Killip, Hallett, Elgar, Cummings and other members of the staff, who showed interest and encouragement; to the Parents and Citizens, who extended the fullest co-operation to those in charge; to the Rowing Advisory Committee for its valuable work, especially in promoting the idea of a new rowing shed; and to all others who assisted in any way.

PERFORMANCES OF THE CREWS St. Ignatius' Regatta

The first regatta in which a school crew competed was the St. Ignatius' Regatta, held every year on the Lane Cove River. A launch

THE RECORD

was hired to enable friends and supporters to view the racing, and those present had the gratification of seeing our First Four win the heat and final of the Maiden Fours, breaking the previous record by 10 secs. This crew turned out to be the crack combination of camp.

G.P.S. Minor Regatta

This regatta, for the junior crews, was held on the Parramatta a week before the main regatta, and we had three crews entered—the 3rd, 4th and 5th Fours. The 5th Four was late for the start, so was entered in the 4th Fours' race.

The Third Four, after being behind at the start, won a hard race from Grammar by two lengths, with Shore two lengths further back.

The Fourth Four won by a length from our Fifth Four, who rowed an excellent race to beat Shore's Fourth Four by two feet.

These wins greatly heartened the other crews for the great day on the Nepean.

University Regatta

This was held on the Parramatta, and Sydney High entered the Second and Third Fours in the Maiden Fours. The Third Four won the first heat by three lengths from King's First Four and University, and the Second Four won the second heat by six lengths from Riverview's First Four and Shore. In the final, our Second Four beat our Third Four by four lengths, with King's third.

Transfer of the Camp to Penrith

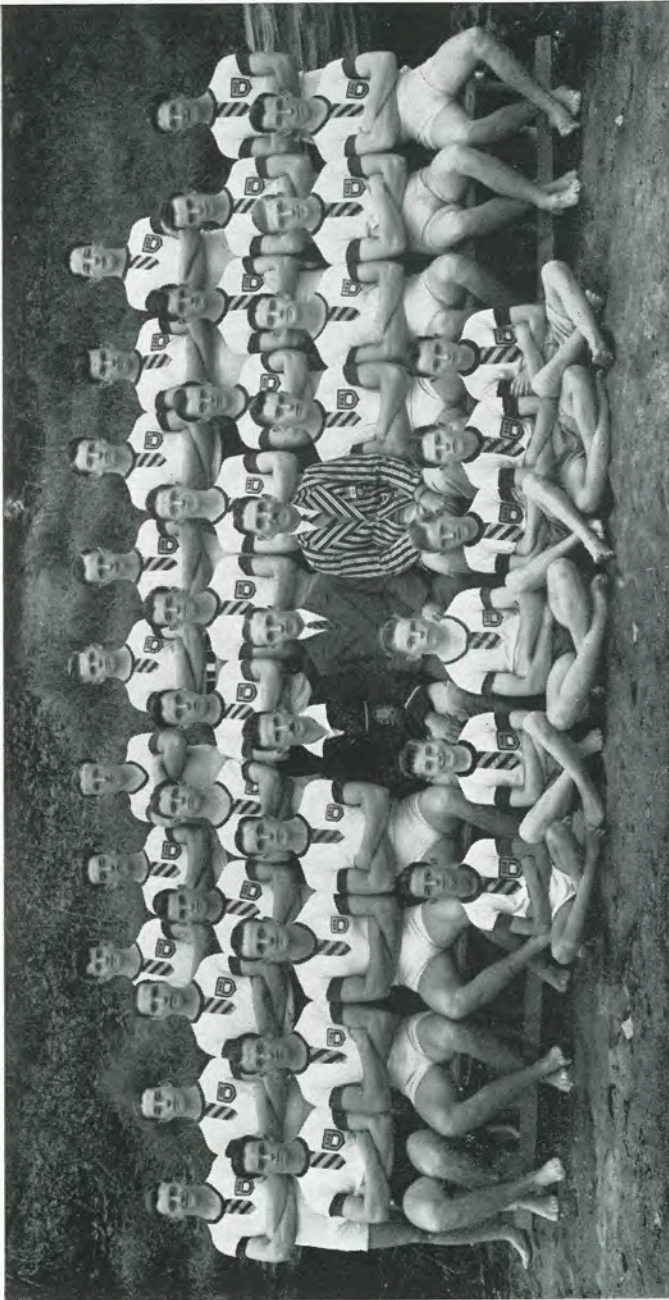

On the Thursday morning before the G.P.S. Regatta, the Eight and First and Second Fours transferred to the Nepean, and lost no time in getting on the water and accustoming themselves to the new conditions. The Eight, in particular, struck form in the final week, and great hopes were centred on it. Saturday, April 22nd, turned out a glorious day, and those who made the trip saw some splendid rowing.

Second Fours — 1 Mile

First event on the programme was the Second Fours' race. All crews were away well together to a splendid start, but High, stroking 40, was first to show out. Getting the lead, they settled down to a long, steady stroke, and at the quarter-mile High led by three-quarters of a length from Grammar, with Scots half a length further back. When half a mile had been covered, they were two lengths ahead of Grammar, followed by St. Joseph's another two lengths away. Rating 36, High led Grammar by two and a half lengths at the three-quarter mark. Grammar and St. Joseph's made a bold bid over the last quarter, but could not overhaul the leaders and, increasing the rating to 38, High went away to score by a length and a quarter from Grammar, with St. Joseph's three-quarters of a length away third. Time: 6.14 $\frac{3}{4}$.

First Fours — 1 Mile

The First Fours were the next to appear, and here we had the Yaralla Cup to defend. From a splendid start, Riverview, Newington and High shot out together and, opening out, Riverview passed the quarter-mile a half-length ahead of Newington and High. High went

THE RECORD

hard after Riverview, and reduced the leeway to a quarter-length at the half-mile. Riverview fought to maintain its lead, but High moved up and, rating 36, had a slight lead at the three-quarter mile, with Shore and St. Joseph's together three-quarters of a length back. Bringing the rating up to 38, High moved splendidly over the last quarter, and opened out to win by three and a half lengths from Riverview, with Newington a length back third. Time: 6.7.

Championship Eights — $1\frac{1}{2}$ Miles

The main event of the afternoon was the Championship Eights for the "Head of the River." There was a light breeze blowing against the crews, but the water was almost calm, and there was little run in the stream.

All crews hit high ratings off the mark, but in the first fifty yards Sydney High forced its way slightly ahead from Grammar. When a quarter of a mile had been rowed, High was still in the lead, and was still rating high, but Scots was moving up. At the half-mile Scots had drawn level with Sydney High, Shore being a length back. Running to the three-quarter mile, Scots went to the front and led High by a quarter-length, then a quarter-length to Shore. At the mile post, High had drawn up again with Scots, Shore still lying third a length away, and all other crews bunched up together a length back. Approaching the mile and a quarter peg, Shore commenced the run which carried it on to ultimate victory. It was now a great race between Shore, High and Scots, who were about on level terms with a quarter of a mile to go. High tried desperately to hold Shore, but the latter, keeping its splendid form and increasing its rate to 36, opened out to win by two and a half lengths in 8.19 $\frac{1}{2}$. Scots, who had rowed a very courageous race, was half a length behind High. All the other crews were bunched together about a length away. The winners rowed a magnificent race, and richly deserved their triumph.

To Shore and its coach, Mr. Robson, we extend heartiest congratulations for winning the proud title of "Head of the River" for the third year in succession.

Results of all Races

FOURTH FOURS—High 1, High 2, Shore 3.

THIRD FOURS—High 1, Grammar 2, Shore 3.

SECOND FOURS—High 1, Grammar 2, St. Joseph's 3.

FIRST FOURS—High 1, Riverview 2, Newington 3.

EIGHTS—Shore 1, High 2, Scots 3.

So the 1939 rowing season is over, and we can look back with pride on the School's achievements. In the last two years we have been second on each occasion to a splendid crew from Shore. With excellent material from this year's winning Fours, we must make a superhuman effort next year to win the coveted title. The 1940 Eight should certainly measure up to the high standard of its two illustrious predecessors. So let us look forward to 1940: may we uphold the fine rowing traditions of a great rowing school!

S. WICK, *Rowing Master.*

C.H.S., FIRST GRADE, AND G.P.S. MATCHES

C.H.S. MATCHES, 1938 — SECOND HALF

S.H.S. v. Fort Street at McKay Oval, Centennial Park, September 28 and October 5

S.H.S.—First innings, 203 (Gray 111, Campling 17, Bond 16, Binns 15, M. Bartley 15, J. Bartley 12 not out, Norrie 11).

FORT STREET—First innings, 49 (M. Bartley 4 for 14, Cawsey 4 for 14, Gray 1 for 3).

FORT STREET—Second innings, 121 (Binns 3 for 12, Norrie 2 for 21, Cawsey 2 for 27, Campling 1 for 13).

Result—Won outright by an innings and 33 runs.

S.H.S. v. North Sydney at Centennial Park, October 12 and 19

S.H.S.—First innings, 136 (R. Cawsey 36, M. Bartley 19, A. Campling 19, K. Binns 10).

NORTH SYDNEY—First innings, 133 (Binns 5 for 40, M. Bartley 2 for 21, Skinner 1 for 13, Cawsey 1 for 34).

S.H.S.—Second innings, 7 wickets for 129 runs (Binns 38, Norrie 26, Cawsey 22, M. Bartley 21 not out [including 3 sixes], Gray 10).

Result—Won on first innings by 3 runs.

THE RECORD

S.H.S. v. Technical High School at Centennial Park, October 26 and November 2

TECHNICAL—First innings, 43 (Cawsey 3 for 9, Skinner 3 for 15, M. Bartley 2 for 18).

S.H.S.—First innings, 134 (Cawsey 58 not out, Gray 31, M. Bartley 26).

TECHNICAL—Second innings, 50 (Gray 5 for 2, Skinner 2 for 10, Cawsey 3 for 35).

Result—Won outright by an innings and 41 runs.

ST. IGNATIUS—Second innings, 171 (Rickey 4 for 37, Antico 2 for 5, Carroll 1 for 25, Norrie 1 for 12, Cawsey 1 for 62).

Result—Won outright by an innings and 19 runs.

S.H.S. v. St. Joseph's College at Centennial Park, March 4 and 11

March 4—No play owing to rain.

March 11: ST. JOSEPH'S COLLEGE—First innings, 139 (Norrie 2 for 13, Antico 2 for 15, Cawsey 3 for 54, Rickey 2 for 14, Binns 1 for 29).

THE RECORD

S.H.S.—First innings, 46 (Carroll 10, Ellis 10).

Result—Lost on first innings by 86 runs.

S.H.S. v. Sydney Church of England Grammar School at Centennial Park, March 18 and 25

S.C.E.G.S.—First innings, 235 (M. Bartley 3 for 37, Norrie 2 for 22, Cawsey 3 for 79, Carroll 1 for 12, Antico 1 for 12).

S.H.S.—First innings, 115 (Kneen 56).

S.H.S.—Second innings, no wickets for 16 (Kneen 7 not out, Ellis 7 not out). No further playing owing to rain.

Result—Lost on first innings by 120 runs.

S.H.S. v. The King's School at Parramatta, April 1 and 15 (No Play on April 8, Easter Saturday)

THE KING'S SCHOOL—First innings, 101 (Cawsey 4 for 34, Norrie 2 for 14, Antico 1 for 5, Rickey 1 for 7, Bartley 1 for 23).

S.H.S.—First innings, 146 (Norrie 54, Cawsey 31, Bartley 13, Kneen 11).

THE KING'S SCHOOL—Second innings, 144 (Bartley 3 for 19, Cawsey 4 for 53, Norrie 2 for 32, Carroll 1 for 12).

S.H.S.—Second innings, 3 wickets for 100 (Cawsey 36 not out, Ellis 32, Kneen 17, Binns 10 not out).

Result—Won outright by 7 wickets.

G.P.S. Batting Averages, 1939 — First Half

Name.	Inns.	N.O.	Highest Score.	Agg.	Avg.
R. Baldwin	1	—	48	48	48.0
K. Binns	5	1	125	140	35.0
A. Campling	1	—	31	31	31.0
R. Cawsey	5	1	39	118	29.5
W. Kneen	6	1	56	116	23.2
J. Norrie	4	—	54	90	22.5
N. Carroll	4	2	17	28	14.0
J. Ellis	5	1	32	55	13.7
M. Bartley	2	—	13	22	11.0

Also Batted—J. Rickey, 4 innings, 2 not out, 15 runs; K. Busby, 1 innings, 6 runs; T. Antico, 5 innings, 24 runs; J. Bond, 4 innings, 11 runs; W. O'Brien, 2 innings, 5 runs; C. Rose, 2 innings, no runs.

Catches—J. Bond (W.K.) 13, stumped 1; Cawsey 4, Norrie 4, Carroll 4, Rickey 4, Binns 1, Ellis 1, Busby 1, O'Brien 1.

Runs Scored by Opponents—929 runs, 60 wickets; average, 15.4.

Runs Scored for S.H.S.—756 runs, 43 wickets; average, 17.5.

Competition Points—24.

Position—Shore 29, Grammar 25, S.H.S. 24, Newington 18.

Matches Played—4; won outright 2; lost on first innings 2.

THE RECORD

G.P.S. Bowling Analysis, 1939 — First Half

Name.	Overs.	Maidens.	Runs.	Wkts.	Avg.
A. Campling	4	—	16	2	8.0
J. Norrie	47	6	93	9	10.3
M. Bartley	28	5	79	7	11.2
J. Riekey	45.5	6	126	10	12.6
T. Antico	35.3	6	99	8	12.3
R. Cawsey	93.1	14	331	16	20.6
N. Carroll	29	9	76	3	25.3

Also Bowled—K. Binns, 1 wicket for 51 runs; R. Baldwin, 0 for 5;
C. Rose, 0 for 12.

RE-UNION MATCHES

S.H.S. v. Old Boys at McKay Oval, Centennial Park, December, 1938

OLD BOYS—First innings, 145 (R. F. Gray 45, R. Neilson 29, E. Smith 28, F. Loomes 17, H. Harper 1, R. Cristofani 4, H. Jeanerret 0, E. Pye 5, S. Burt (Captain) 3, J. Austin 0, K. McCredie 5).

Bowling for The School—Cawsey 6 for 42, R. W. Gray 4 for 25.

THE SCHOOL—First innings, 252 (Cawsey 44, Dent 44, Binns 38, Baldwin 27, M. Bartley 26, J. Bartley 23, Norrie 11).

Bowling for The Old Boys—S. Burt 2 for 40, F. Loomes 1 for 25, J. Austin 1 for 33.

Result—The School won on the first innings by 107 runs.

S.H.S. v. Old Boys at Centennial Park, March 23, 1939

OLD BOYS—First innings, 125 (M. Cohen 35, S. Burt (Captain) 30 not out, Jones 13, H. Dent 0, K. McCredie 4, H. Harper 17, R. Cristofani 11, G. Williams 0, E. Pye 1, Slade 7, C. A. Fairland 4).

Bowling for The School—Norrie 2 for 21, Cawsey 2 for 16, Ellis 1 for 5, Antico 1 for 10, Rose 1 for 14, Carroll 1 for 19, Wilcox 1 for 22.

THE SCHOOL—First innings, 8 wickets for 151 (Norrie 65, Antico 29, Bartley 11, Cawsey 13, Busby 9 not out).

Bowling for The Old Boys—Burt 3 for 31, Jones 3 for 16, Cristofani 1 for 26.

Result—The School won on the first innings by 2 wickets and 26 runs.

CRICKET NOTES AND COMMENTS

In the last issue of *The Record*, we expressed the opinion that there was "every prospect of maintaining the high standard of play in the Second Half that characterised our efforts in the First Half of the year."

THE RECORD

The statistics appended to this report show that our expectations were realised, as the First Eleven representatives were undefeated Premiers in the G.P.S. section, and Co-Premiers in the C.H.S. division.

H. Dent succeeded R. Cristofani as Captain, and O. Skinner was appointed Vice-Captain.

We have almost exhausted our list of superlatives in our endeavour to thank the ladies of the Parents and Citizens' Association for their continued generosity and kindness in connection with the social side of the G.P.S. and Old Boys' cricket matches.

Owing to illness, Mrs. James was unable to be present at the matches as usual. Cricketers hope that Mrs. James will soon rejoice in complete recovery.

We have to thank the Old Boys' Union and Parents and Citizens' Association for the provision of funds, and for fine organising ability relative to the functioning of the McKay Oval, Centennial Park.

Mr. C. A. Fairland, Hon. Sec. for the Ground Committee, does an immense amount of work in a very unobtrusive way, in his efforts to improve the playing areas in Centennial Park; in providing for the continued use of the oval on practically all Saturdays during the year and on public holidays; and by giving close attention to the innumerable details inseparable from the upkeep of a first-class cricket oval.

It is pleasing to see Mr. McKay still taking such a personal interest in the maintenance of the cricket ground (named after himself) and its improvement. He is Chairman of the Ground Committee, and is particularly keen on the provision of a No. 2 Ground, adjoining the main oval. It is rapidly nearing perfection as a playing area for football as well as for cricket, and will be a great acquisition to the School in future.

Cricketers are not unmindful of Mr. H. H. Wiedersehn's services in the past, whilst occupying the position of Hon. Sec. of the Old Boys' Union.

Mr. J. H. Killip (Headmaster) and Mrs. Killip were regular in attendance at all the G.P.S. matches and Old Boys' matches in 1938. Similarly, in 1939, Mr. P. W. Hallett (Acting Headmaster) and Mrs. Hallett have been present, thereby encouraging the cricketers in their efforts to maintain the prestige of the School.

In December, 1938, the Headmaster, Mr. J. H. Killip, entertained the First Eleven at luncheon in the Visitors' Room, and congratulated the team on its dual performances, *viz.*, Premiers in the G.P.S. competition and Co-Premiers in the C.H.S. competition. The function, which was a very successful one, is illustrative of the fine spirit of co-operation and good will which prevails at the School.

On the occasion of the Old Boys' match at the McKay Oval in December, Mr. J. H. Killip (Headmaster) occupied the chair at afternoon tea. He welcomed the Old Boys and thanked Mr. Gray for the presentation to the School of a handsome new Scoring Board. Mr. Selby Burt (Captain) responded for the Old Boys in his usual inimit-

THE RECORD

able way. Hal Dent (School Captain) and Messrs. O. A. Taylor and O. S. Smith also spoke. Mr. C. A. Fairland eloquently moved a hearty vote of thanks to the ladies. The motion was carried enthusiastically by acclamation.

Mr. Garner, Curator of the McKay Oval, provided perfect wickets when the conditions were suitable, and prepared the best wickets possible in the circumstances, under adverse conditions.

Cricketers of all grades are indebted to the School Union for excellent practice wickets, and for good quality material provided.

Details of performances may be gleaned from the list of averages appended, and from the summarised accounts of the matches which precede the averages.

However, a few brief references may be made to the more notable achievements in the G.P.S. and C.H.S. competitions since the beginning of the Second Half, 1938.

G.P.S. Series, 1938 — Second Half

M. Bartley made 20 not out and 31 not out, and captured 3 wickets for 16 in a low-scoring match which virtually decided the Premiership.

O. Skinner secured 6 wickets for 8 runs in the first innings *v.* T.K.S.

R. Cawsey, with 3 for 7 and 7 for 25, had a fine bowling performance to his credit *v.* T.K.S.

By compiling 209 (35 fours) *v.* Grammar School, R. Cawsey beat the previous record for S.H.S., made by L. Carroll.

Cawsey and Dent (50) added 112 runs for the third wicket, and Cawsey and Bond (60) added 163 to the total for the ninth wicket.

The total 397, which was made *v.* S.G.S., was our highest score for 1938.

Our bowling prevailed against Scots: Gray secured 6 for 42 in the first innings, while M. Bartley (4 for 7) and Skinner (4 for 14) did the damage in the second innings. Baldwin was our highest scorer with 45 (10 fours). Dent made 43 (6 fours).

G.P.S. Matches, 1939 — First Half

K. Binns, 125 (18 fours), played a bright innings *v.* St. Ignatius. He and W. Kneen (22) made 100 runs in their opening partnership.

In the same match, Baldwin made 48 (7 fours) and Campling 31 (3 fours, 2 sixes).

The total made against S.I.C., *viz.*, 329, is our highest score for the First Half.

J. Rickey (3 for 43 and 4 for 37) bowled best.

J. Norrie bowled 9 overs for 13 runs, 2 wickets, in the match *v.* St. Joseph's.

In the match *v.* St. Joseph's College, play was confined to one day owing to rain. Ellis (10) and Carroll (10) were the only double figure scores for S.H.S.

THE RECORD

Playing against Shore, W. Kneen made 56. He opened the innings and was the last batsman dismissed.

R. Cawsey was responsible for a fine all-round performance against T.K.S. His bowling figures were 4 for 34 and 4 for 53, whilst he made 31 and 36 not out.

J. Norrie, 54 (7 fours, 1 six), figured in a match-winning effort in the first innings *v.* T.K.S.

Ellis, 32 (3 fours, 1 six), and Kneen, 17, recorded 46 for the first wicket in the match *v.* T.K.S.

In both series J. Bond, wicket-keeper, caught 17, stumped 2, and allowed only 21 byes.

C.H.S. Matches, 1938 — Second Half

R. Gray, 111 (16 fours), played a vigorous innings *v.* Fort Street.

K. Binns secured 5 for 40 in a timely effort to gain a narrow win against North Sydney by 3 runs.

There were some good bowling performances in the match *v.* Technical High School: R. Cawsey 3 for 9 and 3 for 35, Skinner 3 for 15 and 2 for 10, and R. Gray's devastating 5 wickets for 2 runs in the second innings.

In this match, Cawsey played a meritorious innings of 58 not out.

C.H.S. Matches, 1939 — First Half

In a first appearance for the School, Antico made top score *v.* Technical, *viz.*, 42. Rickey in his first match captured 3 for 11 in the first innings.

Carroll made 22 not out, and Cawsey 45 in the second innings *v.* Technical.

Playing against Parramatta, Cawsey 103 (12 fours), Binns 101 (14 fours, 2 sixes), and Antico 34, made most of the runs. The total was 280 for 5 wickets. Cawsey, 6 for 16 and 3 for 46, bowled exceptionally well.

At Hurlstone, S.H.S. made 80. Ellis (18), Norrie (14) and Kneen (13) were the chief run-getters. Bartley (3 for 17) and Cawsey (3 for 25) secured the six wickets which fell. The match was confined to one day owing to rain, the result being a draw in favour of Hurlstone.

Old Boys' Match, March, 1939

The details of play are given on another page. At afternoon tea, Mr. P. W. Hallett (Acting Headmaster) presided. In a happy speech, he warmly welcomed the Old Boys. Mr. Selby Burt (Captain of the Old Boys) responded in his best form. Roy Cawsey (School Captain), Messrs. E. P. Patterson (Sportsmaster) and O. S. Smith contributed short speeches, and Mr. C. A. Fairland deservedly eulogised the ladies, and concluded his remarks by moving a hearty vote of thanks to them for their invaluable services. The motion was carried with enthusiasm.

THE RECORD

Cricketers extend their congratulations to Eric Hyman, the newly elected Hon. Sec. of the Old Boys' Union, and all hope that he will have a pleasant and prosperous term of office.

Many of the Old Boys have been figuring prominently in the higher cricket circles of the State during the past season.

Selby Burt, Captain of Western Suburbs and Captain of the Old Boys, is a State selector, and his cleverly concealed variations of pace and break are features of his successful bowling efforts.

Mort Cohen (Paddington) had the distinction of securing the most wickets in First Grade in 1938-39. He accounted for 56 wickets at a cost low enough to rank second in the list of averages. In a recent match, he opened the innings dramatically by despatching the first delivery for six.

Albert Cheetham (Balmain) has represented the State. He is a vigorous and enterprising opening batsman, and a pacy bowler. Recently, in a First Grade Match, he performed the "hat-trick"—no mean feat.

Don. James (Waverley) made 600 runs in good style in First Grade Cricket in the season just concluded. His average was 41. He is a brilliant fieldsman and a useful bowler, who attends to spin, flight, variation and, above all, length.

Arthur Bombelli (Western Suburbs) is a consistent batsman who has been selected in some of the minor State games.

L. Hynes (Captain, Gordon District C.C.) is a fast left-hand bowler who has represented the State on numerous occasions. He was strongly in the running for selection in the last Australian Eleven.

Other Old Boys figuring in First Grade ranks are:—G. Williams (Northern Suburbs, Captain), R. Blacket and L. Owen (University), E. Smith and J. Hodgson (Manly).

To those mentioned, and to the multitude of Old Boys who find pleasure in trying to master the intricacies of the game of cricket, we send greetings and best wishes for success, both on the cricket field and in the wider spheres of life.

O. S. SMITH.

SECOND GRADE CRICKET

The Second Eleven had a fair season, registering one first innings win, one draw, and one first innings loss.

The first match, against Technical High School, resulted in a win on the first innings for Technical High School. Scores:—

Technical High School—First innings, 183 (Clarke 6 for 70).

Sydney High School—First innings, 160 (O'Brien 45, Failes 37).

Technical High School—Second innings, 8 wickets for 71 (Berry 4 for 28, Willcox 4 for 25).

Parramatta High School, in our second match, was defeated on the first innings. Scores:—

THE RECORD

Parramatta High School—First innings, 170 (Kent 3 for 9, Peet 3 for 36).

Sydney High School—First innings, 7 wickets for 238 (Ellis 115, Berry 52 not out).

Parramatta High School—Second innings, 4 wickets for 23 (Willcox 1 for 5, Ellis 1 for 1, Peet 1 for 2).

Hurlstone Agricultural High School and Sydney High School played a draw in the third match, play being interrupted by rain. Scores:—

Sydney High School—First innings, 203 (Willcox 47, Busby 39, Ahearn 24).

Hurlstone Agricultural High School—First innings, 2 wickets for 12 (Willcox 2 for 4).

Batting Averages

Name.	Inns.	N.O.	Highest Score.	Agg.	Avg.
Ellis	2	—	115	121	60.5
O'Brien	1	—	45	45	45
Berry	3	1	52*	76	38
Ahearn	2	1	24	36	36
Willcox	3	—	47	62	20.6

* Signifies not out.

Bowling Averages

Name.	Overs.	Maidens.	Runs.	Wkts.	Avg.
Ellis	3	—	1	1	1
Kent	7	—	15	3	5
Peet	15.3	3	52	5	10.2
Willcox	28	6	82	8	10.2

THIRD GRADE CRICKET

The Third Grade Cricket team has commenced the season well with outright wins in each of its engagements, and has completed the first half of the season at the head of the competition table. Prominent batsmen are R. Loton (28, 42 n.o., 62), Raftos (34, 44, 78).

Most successful bowlers are Phillips, who has secured 24 wickets at an average cost of 4.1 runs, and Indyk, with 14 wickets, whose average is 6.4.

Results:—

S.H.S. v. Technical High School

S.H.S.—

1st innings, 152.

2nd innings, 5 for 90.

S.H.S. v. Parramatta High School

S.H.S.—

1st innings, 9 for 253.

T.H.S.—

1st innings, 132.

2nd innings, 105.

Parramatta—

1st innings, 100.

2nd innings, 65.

THE RECORD

S.H.S. v. Hurlstone High School

S.H.S.—

1st innings, 182.

H.H.S.—

1st innings, 25.

2nd innings, 25.

FOURTH GRADE CRICKET

Fourth Grade team is, as usual, a good, even one.

The players lack the strength of many previous teams, but have the right principles of batting, which will stand to them in later years.

The bowlers are mostly medium paced. Both Knox and Hannan are able to swing the new ball or use a breeze. That is an asset in boys so young. The team needs a good slow bowler. Burnett is developing well.

The fielding is not as good as usual, as many catches have been missed and the throwing in is too high and too slow. Dexter keeps wickets well.

The team defeated T.H.S. outright in the first match, mainly due to Riley's brilliant knock of 201 and Woolridge's 45 n.o. Parramatta defeated the team by 3 runs on the first innings, and we tied with Hurlstone, scoring 66 each in the first innings. The competition ends before the Xmas vacation.

CENTENNIAL PARK CRICKET

During the Park season, which closed on 5th April, 32 teams, or 352 boys, presented themselves, and these were graded into four groups, *viz.*, Fifth Year of four teams, Fourth-Third Year of twelve, Second Year of eight, and First Year of eight.

The Fourth-Third Year Competition was won with a score of 20 points by 3E Firsts with the following team:—Masters (Captain), Frost, Maunsell, O'Flynn, Ploughman, Rice, Ross, Schulman, Thorburn, Wood and Holmes.

The Second Year Competition was won with a score of 16 points by 2A Firsts, whose team was: Howell (Captain), Cohen, Cross, Glover, Goldacre, Moseley, Philp, Sayer, Waterfield, Watt, and Whitaker.

The First Year Competition was won by 1C Firsts, who made 17 points with the following team—Ziems (Captain), Allen, Bevan, Gill, Hardy, Harrison, Lamb, Niccol, Ramsden, Webb and Welsh.

We must not conclude these notes without a word of thanks to Mr. J. Greaves, who rendered first aid on a couple of occasions, and to Messrs. F. Hanly and R. Jerrems, whose cars were ready at the Park for any emergency.

We must also thank W. McBride and W. Greenberg, of 4D, who have made a thorough job of the issue and collection of the material for the Park teams.

THE RECORD

FOOTBALL

The S.H.S. programme for the 1939 season is as follows:—

APRIL	26—Hurlstone High School (Away).
MAY	3—North Sydney High School (Home).
"	10—Fort Street High School (Home).
"	31—Canterbury High School (Away).
JUNE	7—Technical High School (Away).
"	14—Parramatta High School (Home).
"	21—Bye.
"	28—Hurlstone High School (Home).
JULY	1—St. Joseph's College (Home).
"	5—North Sydney High School (Away).
"	8—St. Ignatius' College (Home).
"	12—Fort Street High School (Away).
"	15—The King's School (Away).
"	19—Canterbury High School (Home).
"	22—Scots College (Home).
"	26—Technical High School (Home).
"	29—Sydney Grammar School (Away).
AUGUST	2—Parramatta High School (Away).
"	5—Newington College (Home).
"	12—S.C.E.G.S. (Away).

The annual Old Boys' Match will conclude the season.

SWIMMING

Swimming throughout the season just concluded has been an exceedingly popular Wednesday afternoon activity. With a roll-call of over 400, organised work was not practicable for all boys. However, Mr. Black, continuing his good work of previous seasons, once again conducted a large and successful life-saving class, all the members of which are now the proud holders of "bronzes" or certificates. Also, Mr. H. Edmonds took charge of the non-swimmers, and his steady stream of graduates to the swimmers' company showed the value of organised work.

The season will be remembered chiefly for the performances of our representatives at the Combined High Schools' Carnival. These boys won for the School the Senior Shield, the Under Fourteen Shield, and the Shield for the school with the highest aggregate. Outstanding in the senior division was K. Baret, who won the 880 yards, 220 yards and diving; was second in the 440 yards and 110 yards; won the second division of the 55 yards and third division of the breast-stroke, and was a member of the winning relay team. By his win in the 220 yards, Baret became holder of the Rawson Challenge Cup. Congratulations to Baret on a truly magnificent performance, and to all his team-mates—Senior, Junior and Under 14—for a splendid day's work.

THE RECORD

The School Carnival took place at Drummoyne Baths on 3rd March. K. Baret won the Senior Championship and Cup for the second time, and also the Claude Tressider Shield for breast-stroke. The Junior and Under 14 trophies were won convincingly by L. Corkery and P. Dreelin. The trophies were presented at School by Mr. Hallett after the return from the carnival.

Summary of Results, 1939 Season G.P.S. EVENTS

- 500 Yards Relay—High 1, Scots 2, Shore 3.
(High's Team: Baret, Abbott, Foley, Corkery, Hart.)
200 Metres—Shore 1, High 2, Scots 3.

C.H.S. CARNIVAL

Senior

- 880 Yards—Div. 1, K. Baret 1; Div. 2, L. Corkery 2; Div. 3, W. Bailey 2.
440 Yards—Div. 1, K. Baret 2; Div. 2, L. Corkery 1, Div. 3, W. Bailey 3.
220 Yards—Div. 1, K. Baret 1; Div. 2, L. Corkery 1; Div. 3, W. Cutting 2.
110 Yards—Div. 1, K. Baret 2; Div. 2, B. Abbott 1; Div. 3, L. Foley 3.

THE RECORD

O.B.U. COUNCIL

The O.B.U. is fortunate in being able to retain His Honour Judge J. R. Nield, B.A., LL.B., as President for another year, and thus be assured of competent leadership and earnest support during 1939.

A perusal of the office-bearers of the Old Boys' Union for 1939 will reveal many changes, especially in the personnel of the general committee. At the last general meeting of the Union, a new spirit of ambition and enthusiasm was present, the result being the many changes in the Council. It was felt by many that new councillors with original ideas, fresh vigour, would rejuvenate the Union, and place it in the position to be of greater assistance to the School.

H. H. Wiedersehn, the retiring secretary, has for the past ten years held an executive position in the O.B.U.—six years as assistant secretary, four years as secretary—and all realise the amount of work that he did. Mr. Wiedersehn displayed unflagging energy, linked with unending enthusiasm, and for the whole period of office proved to be the driving force behind the O.B.U. The excellent organising ability revealed during the Jubilee year is an outstanding example of his work during his tenure of office. *The Outline History of the Sydney High School* represented many months of research work by him, and every Old Boy knows that the completed history finally produced was a credit to him. The O.B.U. and the School are indebted to Mr. Wiedersehn for such a lasting record.

As a mark of appreciation for services rendered, the O.B.U. Council, following the recommendation of the last general meeting, unanimously elected H. H. Wiedersehn an honorary life member of the Old Boys' Union.

E. W. Hyman, the newly appointed secretary, should be well known to all Old Boys. He attended "High" from 1927 to 1931, and was School Prefect in 1930, School Captain in 1931. Since leaving school he has not figured very prominently in the activities of the O.B.U., mainly because of his University studies, but now, having graduated in the faculty of Economics, he is busy renewing old friendships, and is anxious to assist the O.B.U. to meet its many obligations. Mr. Hyman, being new to secretarial work, realises that he can only be successful if he has the whole-hearted support of the Old Boys, and any suggestions of a practical nature would be welcome. The new secretary is prepared to work untiringly to build the Union to greater strength, and all members will wish him success.

MEMBERSHIP

Much is expected of the Old Boys' Union each year, but a study of the membership figures emphasises the lack of support forthcoming from ex-students of "High." The Council feel that, in many instances, all that is necessary is a personal reminder, and each member is asked to make himself responsible for at least one new member. The

THE RECORD

Council is by no means evading the responsibility; a membership committee is at present organising a membership drive, which is a tremendous task, and assistance from individual members can do much to lighten the load.

Too much stress cannot be placed on the necessity of a strong membership. Besides the moral support it affords the Council, the effect on the financial position would be beneficial. Members are invited to advise the Honorary Secretary of the names and addresses of any Old Boys known by them to be non-members, in order that they may be approached.

It is pleasing to place on record three more Old Boys as life members:—

Dr. S. C. M. HIATT. J. W. BENNETT. C. H. FRANKS.

FINANCE

The bank balance of the Union at the end of 1938 was very small, thus the expenditure of 1939 must be guided by the receipts. It is still too early in this financial year to estimate the total receipts, but the splendid list of donations set out below, together with the membership drive previously mentioned, should place the Council in a better financial position. However, such obligations as the O.B.U. share of the upkeep of the McKay Sportsground, instalments on the Dressing Shed Loan, and the usual annual prizes, will absorb most of the expected revenue, and the Council, in order to assist in such School activities as Rowing, etc., further appeal to those Old Boys who can to increase their minimum subscription in the form of a donation.

Since publication of the last *Record*, the following donations are gratefully acknowledged:—

His Honour J. R. Nield	£5 0 0	D. S. Loftus	£1 1 0
H. C. Wilson	£5 0 0	D. Ada	£1 1 0
H. V. Baret	£1 11 6	A. J. Trier	£1 1 0

P. J. Squires	10 6		

SONS OF OLD BOYS

It was been brought to the notice of the Council that many Old Boys do not know that the Department of Education makes available annually a limited number of places at Sydney High for sons of Old Boys. This is an excellent concession, and Old Boys are encouraged to avail themselves of it. Recently, misunderstanding has arisen owing to the manner in which the officials of the Department of Education have been interpreting the provision, so the Council is attempting to obtain a definite statement of their policy, and any Old Boy interested is requested to communicate with the Secretary.

OBITUARY

The Late Mr. Sydney Thomas Cash

It is with regret that the death of Mr. S. T. Cash is reported. Mr. Cash, late of the Mines Department, was an ardent O.B.U. supporter.

The Late Mr. Leonard R. Raffell

L. R. Raffell, late of Wingham, died suddenly on the 8th November, 1938.

SOCIAL ACTIVITIES

The final social function for 1938 was the 34th Annual Dinner, which was held at the Carlton Hotel on the 12th December. The guest of honour was the Rt. Hon. Sir Earle Page, P.C., G.C.M.G., M.B., Deputy Prime Minister and Minister for Commerce. The opportunity was taken by the Union to personally congratulate Sir Earle Page on his knighthood. All present voted the night an excellent success.

Regatta Night, 22nd April, afforded the first opportunity for a social gathering in 1939. The Combined G.P.S. Old Boys' Unions conducted a ball at David Jones', and the night proved a huge success. A gathering of 650 guests, all animated with Regatta excitement, insured a happy night.

A complete change is being made in the location of the Chocolate and Blue Ball for 1939. On Saturday night, 8th July, the new

THE RECORD

showboat, *s.s. Kalang*, will be the setting for S.H.S. Old Boys' revelry. The attendance at the last ball was not encouraging, and the Council feels that this innovation should stimulate fresh interest. The Chocolate and Blue Ball is the one night out that every Old Boy should promise himself; for, besides assisting the O.B.U., it is also a marvellous opportunity to renew acquaintances, and indulge in reminiscences.

The Social Committee is busy at present drawing up plans for 1939, during which it hopes to provide many social functions. Smoke socials, golf outings, car excursions are some of the suggestions that are being considered, thus Old Boys can expect many opportunities to gather together, "wearing the old school tie."

ANNUAL PAST v. PRESENT CRICKET MATCH

The annual cricket match between the O.B.U. and the School was played on the McKay Sportsground, 8th December, 1938. The School team proved to be far superior, dismissing the O.B.U. for a total of 145, and replying with 8 wickets for 252.

The O.B.U. team, organised by S. J. Burt, was composed of the following Old Boys—R. F. Gray, E. Smith, H. E. Harper, R. Cristofani, R. Nielson, E. Pye, S. J. Burt, F. Loomes, J. W. Austin, K. McCredie, H. Jeanneret, R. Lucas.

DEBATE: OLD BOYS v. THE SCHOOL

On the 2nd December, a team of Old Boys, consisting of S. A. Sadler, G. Diethelm and H. Simms, debated with the School team, the winners of the G.P.S. Competition, that "Democracy is a Declining Force." Mr. F. A. Elgar was in the chair, and Mr. Cummings adjudicated. After a very interesting debate, the Old Boys won.

JOTTINGS

Do You Know That—

F. B. Horner, of the Bureau of Statistics and Economics, has had a particularly brilliant career at the Sydney University, and in the recent examinations graduated as Bachelor of Economics, with First Class Honours, obtaining in his three fourth year subjects High Distinction in Economics and in Public Administration, and Distinction in Economic History? In addition, he obtained the Frank Albert Prize for proficiency at the fourth year examinations; the Chamber of Commerce Prize for the best degree student; the University Medal; and tied for the John S. Darcy Memorial Prize in Public Administration, donated by the Public Service Association.

H. J. Oliver, *B.A.*, obtained the School of English Language and Literature University Medal in the recent M.A. Examinations at the

THE RECORD

Sydney University? He was the only candidate to receive First Class Honours at graduation.

J. R. Robinson, *B.A., LL.B.*, graduated as a Bachelor of Economics at the recent examinations? Just prior to the examination, Jack was transferred to Wellington, New Zealand, by his company, and he was forced to take the examination at the Wellington University under special supervision. However, Jack was equal to the occasion, as the results show.

G. C. Saxby, *B.A.*, Headmaster of "High" from 1925 to 1933, celebrates his 70th birthday this year? Mr. Saxby is still a keen supporter of the School, and of the Old Boys' Union.

For 1938, the "Old Boys' Union" prize and the "John Waterhouse" prize were awarded to Robert Higham; the "John Skyring Cross" prize to Keith R. Coleman; and the "G. C. Saxby" prize to H. M. Beavis?

Ross McKinnon, Captain of the School, 1932, and since prominent in the football world, has moved to Cessnock? It is rumoured that he is interested in the local newspaper.

Morton Cohen, *B.Ec.*, is now a member of the Economics Department of the Bank of New South Wales? Morton excelled with the ball in the last series of first grade cricket matches, securing 50 wickets in the season.

D. Ker, *B.Ec.*, another High boy with the Bank of New South Wales, has been transferred to the London Office?

B. Allen, *B.Ec.*, is now married, and settled in New Zealand?

M. Wood, a member of the N.S.W. King's Cup Crew for 1939, has been in the State crew each year since leaving School? He rowed in the Australian Eight in 1936.

D. Crebbin is also an ex-champion State oarsman, 1933-4? This year Wesley College has been benefiting from his experience, as he has been coaching their crews.

J. Budge, one-time rower and stroke at the School, proudly displays his son and heir, James, as a future rower for "High"?

Reg. White is the father of a daughter, Wendy?

THE RECORD

Dr. J. A. Parkes, coach of the N.S.W. King's Cup Eight, is an old High boy?

□

Lieut. D. R. Jackson has been transferred to Darwin?

□

Lieut. S. Coleman is a member of the Light Horse at Lismore?

□

D. Duffy, the successful coach of the "High" Fours, is a Captain in the Army? The enthusiasm Mr. Duffy has maintained for the School's rowing is noteworthy, and all "High" boys sincerely appreciate it. Old Boys of 1929 will remember the story of how the toe-nail of Desmond won the G.P.S. Regatta for the "High" Eight.

□

F. Wootton is now a qualified doctor in medicine?

□

H. Lobb has returned from England, but was married whilst away? Congratulations!

□

Sydney Rowing Club boasts of many "High" boys? For example, C. Ebsworth is treasurer, H. Lee is on the committee, R. Wise is the registrar.

□

R. Wise is another military man—a lieutenant?

□

D. Hopman is a school teacher at Goulburn?

□

S. Farrow, athlete and cricketer when at "High," was married during 1938? Congratulations!

□

I. I. Wyatt has fully recovered from the serious car accident that he had last year, and now back on duty?

□

Dr. G. H. Cunningham has returned from England? Whilst abroad, he was permitted to inspect the military hospitals in Germany.

□

B. Dickenson, Olympic and Empire Games representative in the hop, step and jump, is now concentrating on the coaching of new material in the athletic field?

□

N. Dunnett is showing great promise as an ice-skater and ice-hockey player?

□

G. Nicols and L. Nix have both become qualified solicitors?

□

Once again a party of Old Boys visited the grave of Gordon MacArthur on the anniversary of his death? All Old Boys will re-

THE RECORD

member the sad occasion on the 6th April, 1932, when Gordon was a member of the rowing camp. All ex-students of "High" are welcome to attend this annual visit, and are asked to communicate with the secretary for further details.

The father of Dr. H. V. Baret, an Old Boy, and of Kenneth, a member of "High's" Eight this year, passed away during Regatta Week? Sincere condolences are extended to them.

MORNING IDYLL

*Early sunlight thro' the trees,
Glinting gold in Susan's hair;
Keen and light the morning breeze,
Song of magpies in the air.*

*Susan, dreaming on the swing,
Swaying idly to and fro;
On the grass, a tidy ring
Of brown toadstools, squat and low.*

KEN COLLINS (4C).

DREAM CASTLE

*I built a castle in the realm of dreams,
With slender turrets in the Gothic style,
And walls that rose sheer from a rock-bound isle
To gables ghostly in the moon's wan beams.
In bow'r and hall, bright with the lurid gleams
Of friendly fires, was peace profound; the while
A holy calm lay o'er the chapel aisle,
Dim-lit by windows rich with sacred themes.
And, lo! there leaned from out her casement high,
A stately princess fair as Guinevere.
Her thoughts, as rapt she gazed, no man might tell,
But from her lips there fell a gentle sigh.
She softly spoke: but when I strove to hear,
My dream world faded at the word: "Farewell!"*

H. E. (An Old Boy).

THE FALL OF A CITY

Looking over the past year, a year that has been fraught with fears of war for the whole world, I cannot but shudder when I think of those terrible days at the fall of Canton. One of the most progressive commercial cities has been reduced to ruins. At this particular time I happened to be in Kowloon, on the mainland of Hong Kong, less than one hundred miles from this beautiful city.

THE RECORD

It has been some years since I last visited Canton; but everything is as clear to me as if it were yesterday. I shall never forget the many fine structures, the ancient Chinese architecture beside the gaunt modern buildings, the wide parks, peaceful river and bridges, and many others. I can see before me rickshas labouring past in contrast to its more modern but cumbersome brother, the automobile, for many of the streets are rather too narrow to allow a car to pass though. Here and there sit letter writers, learned men, who read or write letters for the less fortunate.

My mind, however, dwells upon the children, happy and contented, rushing in and out of doors, laughing and playing; children crawling and running—dozens of children, flying their kites and reading books, without a care in the world.

One day the cry of war was on everyone's lips! War! From one end of the continent to the other, the word echoed and re-echoed. The children at play, their elder brothers and sisters at school and in the universities, fathers, mothers, everyone, from the merchants in the cities to the farmers on their fields, their was the cry of War!

Aeroplanes flew overhead day after day, bringing with them a message of death as their loads of destruction hurtled down, leaving ruin and death behind for the citizens. Where now are those children who were playing so happily? The once laughing child lay huddled beside a sobbing mother. The horror of war wrought from every family untold sorrow. The children no longer rushed about happily; those remaining wandered dejectedly among the dead and the debris, hungry and destitute, crying for their parents and loved ones.

No longer was it a city of commercial activity or a seat of learning. The schools and university were reduced in many cases to ashes, ancient art and architecture were buried forever under a wave of destruction. The visit just before the actual fall showed me the destruction wrought, and mere words could not describe the extent.

Then came that fateful week in October; soldiers poured in from the transports on the road to Canton, where they found not a beautiful city but a prized "spoils of war"—a collection of smouldering ruins useless to them. Such is the glory of war!

The history of China has been full of stories of war and struggles for power. From the Han Dynasty, 206 B.C.-220 A.D., down through the ages to the Republic of 1911, not only war, but floods, famine and disease have claimed their millions in a history brimming with colour and breathless incident. What a drama it is, intensely human, often sordid, cruel, ghastly! Yet a truly fascinating drama, so that, like sunshine after rain, China can leap into a high heaven of grandeur and majesty! Amid the welter of external pressure, difficulties, and aggression, it will not be long before the most ancient of the world's living civilisations will reach a brightening destiny and the dawn of happier days.

W. H. CUMINES (4A).

TELEVISION

Television is here! Not, I admit, in Australia, but it is firmly established in England and, I believe, in other European countries.

In England they have a television transmitting station at Alexandra Palace which is declared to be past the experimental stage; in fact, they give regular programmes every day, including pictures, plays, and even country scenes and test matches. I myself saw the fifth test televised from the Oval. The image is very clear, and is made up of spots of light caused by electrons generated in a cathode ray tube striking a fluorescent screen. The speed the electrons are moving at is shown by the fact that they cover the entire screen in 405 lines 25 times every second.

Television is rendered possible, as is the cinema, by the fact that the eye cannot separate objects or images repeating 25 times or more per second.

The object is scanned by a beam of light, and the photo-electric cell turns the reflected light (which is of the average intensity of the light reflected from the section under consideration) into electric impulses. These, when they reach the receiving set, are changed again into light spots in exactly the same positions on the screen as they were on the object. Obviously, the smaller the section that is taken the clearer will be the image when received, as only the average intensity of the light is transmitted.

When an object is "scanned," a small section of the object is taken, and the light reflected to the photo-electric cell, then another section of the same size is taken, and the light again reflected to the cell. This operation is repeated until the whole picture has been covered. It is then said to have been scanned.

When these impulses are produced in the studio they are amplified, super-imposed on carrier waves, and sent to the aerial to be despatched into the ether.

The receiving aerial for the vision waves is not at all like the usual aerial, but is more like a round cage. From the aerial the impulses are led into the receiving set, amplified, and the vision is synchronised with the sound, and is then passed to the cathode ray tube. This is composed of (working from the back to the screen), a cathode, which emits a stream of electrons, these pass through an anode ring to give them the proper direction, and then between four plates arranged in two sets of four. Between the plates of each set there passes an alternating electric current; one set is arranged with the plates horizontally to give vertical deviation, and the other set is placed vertically to give horizontal deviation. The reason an alternating current is used is that the electrons having a negative electric charge will be attracted by the anode; and, since this changes from one plate to the other, one set of plates will make the stream of electrons move from side to side, and the other from top to bottom. Having passed the plates, the electrons fly through the tube and

strike the fluorescent screen, where they make little spots of light which make up the image.

The earliest television sets were mechanically driven, but they could not give sufficient speed because of the weight of the moving parts; therefore, the scientists resorted to the lightest thing on earth, namely, the electron, and have produced marvellous results. Manufacturers have partially overcome the high cost of the cathode ray tubes, and are making quite good sets for 45 guineas, and even less.

R. BLAKE (4A).

BLUE MOUNTAIN GRANDEUR

The golden sun rose majestically from behind the lofty mountains, like a liquid blanket, and through which, only the loftier crags penetrated. Under this blanket, I made my way along an unfrequented path, which, I had been told, ran through some of the beauty spots of and beat down upon the thick mist, which enshrouded the landscape Nature.

A few hours later, the mists had completely evaporated, and the sun beamed radiantly upon the earth beneath. By this time, I had reached the bottom of a deep valley and, on rounding a bend in the trail, I was amazed at the scene which lay before me. In between the stately forest monarchs and the tall tree-ferns was a cool green glade. At one end was a miniature waterfall; the water, sparkling in the sun's rays, descended in a thin veil into a pond below. The surface of the pond was as clear as a mirror, and reflected the golden disc of the sun, surrounded by numerous water-lilies, on to which small frogs would hop and splash, croaking with joy. From the other end of the pool, a thin ribbon of water gurgled along the floor of the valley.

The climb to the top of the valley was a long and tiresome one, but the tops of the trees formed a green canopy overhead which gave some protection from the heat of the sun. At the top I lay upon the cool green grass for a brief rest and, thus refreshed, I continued my walk. Soon I passed a dilapidated sign-post which proclaimed that it was one mile to the Grand Canyon. On arriving at this lookout I was robbed of my breath by the sight I saw. What colossal grandeur! The lookout was situated at the top of one mountain, and hundreds of feet below, lay a verdant carpet of swaying trees. The mountain on the other side seemed to have been fashioned by Nature's most skilled artisans. The different hues of the rock changed constantly as the sun moved overhead. Deep down in the valley, where the sun's rays failed to penetrate, the rocks were tinted a deep purple, and the colours gradually became lighter until, at the summit of the mountain, the rock was the colour of a dazzling nugget of gold. I watched the scene, as the sun slowly passed from view behind the western horizon, and formed a vivid background of crimson and purple to the magnificent splendour of the Grand Canyon, and I compared this majestic formation with the delicate, cool scene in the glade in the valley below.

THE RECORD

With reluctance I left this spot and wended my way homewards as the sun sank to rest, and the mists slowly sank back into the valleys, as if to protect them from the cold night winds.

J. SUMNER (4A).

TO NAROOMA

The South Coast of New South Wales abounds in delightful holiday haunts, and none more attractive than Narooma, 230 miles from Sydney.

If the traveller goes by service car, he leaves the train at Nowra, where the car will be waiting. Better still he may travel by car from Sydney, and obtain a more detailed impression of the character of the scenery passed through. From George's River to Bulli Pass (unless one turns off at Bald Hill) low tableland and low flanking hills, with the usual shrub and gum-tree vegetation, are seen.

At the top of Bulli Pass is unfolded a panorama below of lovely coastline and narrow coastal plain where small towns nestle. Soon the car is on the coast level, and reaches Wollongong.

Now near the coast, now farther away, the road winds. At Kiama and in its vicinity, prosperous peaceful dairy farms are seen; here and there are fences made of heaped-up stones, reminiscent of the mother isles. Still enticing glimpses of coast and tossing sea beckon.

Soon we reach the Shoalhaven River. Nowra presents the appearance of a busy little township, but the Shoalhaven River is not seen to advantage from the coast road. This portion of the country has to be seen from the high road over the Cambewarra Mountains, which loom above on the right, to be admired for its extent and natural features.

The drive holds no particular interest now, beyond monotonous road bordered by gum-trees, until we come to Ulladulla and Bate-man's Bay, and the fishermen amongst us think longingly upon their hooks, lines and baits.

Moruya is the next town of any size, and impresses itself upon the memory with its long bridge and broad river. Another twenty-five miles or so along the splendid motoring road and we come to Narooma on the Wagonga River.

Narooma is a small town of some 700 inhabitants, a number which swells to thousands in the summer holidays, when campers and boarders throng there mainly for fishing. The river has a narrow entrance over a bar, but after the bridge is passed it widens to a lakeside expanse of great natural beauty before narrowing off again till it finally ends about seven miles from the sea. Numerous oyster leases are found on its banks and shallows. Narooma oysters are famous in Sydney. Fishermen search the Wagonga by night and by day for various kinds of fish, and from the wharf each day the *Marlin* leaves for Montague Island and a few hours' deep sea fishing for marlin, sharks and other game fish. Montague Island is a lonely island some

THE RECORD

miles out to sea, and is distinguished by a lighthouse. It abounds in seals and penguins.

The beach near the heads is too treacherous for surfing, but a few hundred yards south is a good surfing beach which may be reached through some pleasant bush by a good road.

Timber mills, a fish cannery and a cheese factory provide local employment, and one of the breeziest, most attractively situated golf links lies between the heads and the surf beach.

A few aborigines dawdle on the outskirts of the town, and may sometimes be seen spearing mullet in a salt water reach behind the surf beach, reminding the observer in the distance, where their white-man clothes do not obtrude, by their poise and skill, of their ancient forebears.

Narooma is one of the jewels in the long-linked coastal string of beaches and lakes on the South Coast.

HISTORICAL FANTASY

"What effect did the Armed Neutrality have on Napoleon's Continental Blockade?"

Doesn't Monsieur see that we don't give a Scandinavian hoot about the Armed Neutrality or the Blockade, on a day like this, sunny, blissful—curse that mosquito . . .

. . . In order to have more time for internecine strife, mankind decided to bring about a "rapprochement" with the mosquitoes and all the other creatures which make our working hours interesting. A protocol for the proposed *entente cordiale* was drawn up, and it stated that mosquitoes were to have uninterrupted feeding during that state of coma called sleep, but in any other state bordering on sleep, they could not indulge. The initial statement of the agreement secured freedom of the "mossy" during the hours of daylight. At this time, the mosquito began to agitate "No swatting* without representation." Thus the mosquito secured its complete franchise.

(* "Swatting" = arbitrary execution or extermination.)

D. MCCALLUM (5A).
