HighHelp – A Year 11 SRC initiative

Six months ago, a group of Year 11 students launched a web platform, HighHelp, to aid the 27' Cohort's transition into their senior years. The platform aims to address genuine cohort needs by integrating school systems like Canvas and Clipboard with assessment schedules. The project aims to remove academic barriers by providing peer-sourced resources and feedback channels that build cohort unity and collaboration. By leveraging machine learning, HighHelp is capable of generating topic-specific mock exams with past HSC questions, demonstrating how technology can meaningfully and appropriately assist students.

Backed by unwavering guidance from teachers and feedback from classmates, HighHelp's achievement is already evident with its 210 onboarded students. The success of collective resourcing and the variety of features further reflects the prominence of innovation and collaboration within Sydney Boys culture. Presently, as the Class of 2027 transitions into the critical Year 12 HSC period, HighHelp is exceptionally well-positioned to serve as a reliable, scalable, and continuously improving support system, empowering students to achieve their highest academic potential as a cohort.

We wish to highlight the exceptional contributions of: Lucas Chen (11T), Aryan Ghosh (11S), Franklin Huang (11M), Jasper Kim (11T), Joshua Kuo (11R), Nicklas Li (11F), Ricky Luo (11R), Jun Shim (11F).

**EXCEPTIONAL
CONTRIBUTION**

NSW Public Schools Survey (NPSS)

The 2026 NPSS results show that Sydney Boys High continues to perform strongly across most measures, with notable improvements in teaching quality, high expectations and student wellbeing. The largest gains were in students' perceptions of high expectations, safety and support, and explicit teaching. Areas for further attention are student motivation (still 20% above the state mean), student voice (still 17% above the state mean) and perceptions of support from adults at school (still 10% above the state mean), all of which declined compared to 2025.

To address these areas, the school will work with students and the wellbeing team to better understand the factors contributing to lower levels of motivation, perceptions of adult support and student voice. Student feedback will be used to identify practical actions that can strengthen engagement, increase opportunities for student voice and ensure that every student has a meaningful connection with a trusted adult at school. The school will continue to monitor these measures closely.

LANGUAGE CAMP

2026 Year 9 Languages Camp

On Thursday 30 and Friday 31 July 2026, Year 9 Languages students headed to The Collaroy Centre for an unforgettable two-day camp.

The trip was a fantastic blend of language learning, cultural activities, and thrilling outdoor adventures.

Under the guidance of the camp instructors, we were encouraged to step outside our comfort zones and tackle exciting new challenges.

Activities included abseiling, the drop pole, the giant swing, archery tag, laser tag, and a variety of team sports.

In the evening, the whole group gathered for an entertaining Language Trivia game show, competing for some great prizes derived from the fine arts representing the six languages at SBHS.

Beyond the scheduled itinerary, the camp offered plenty of time for everyone to relax and bond.

Whether playing games together in the cabins, enjoying the delicious catered meals, teaming up for competitions, or playing sports on the terrace with a scenic view of the beach, there was never a dull moment.

To cap off an entertaining stay, we held a Language Talent Show, which featured some impressive student performances.

A massive thank you to Mr Zheng and the Languages Faculty for all their hard work in organising such an incredible experience.

We thoroughly enjoyed every moment and are already looking forward to future events!

Student Account Access when Overseas!

Are you travelling overseas?

Student access to school and Departmental services (portal, email, Canvas, Clipboard, ClickView, etc etc) is ordinarily **blocked** when you are outside Australia.

If your child needs to access their account when overseas, you can enable access for a period of time:

- Visit the [Student Details](#) section of Parent Portal and expand the **Student Overseas Access** section.
- Fill out the form including the days you will be away, where you are going and why your child will need access.
- This information will be recorded and access granted.

If you are travelling overseas, there is also a good chance the school's identity protection system will consider you at high risk of account compromise and **lock your child's account**. They can fix this by pre-registering for Multi-Factor Authentication, preferably using the Microsoft Authenticator app on a phone or a Passkey.

Authentication

To manage Multi-Factor Authentication methods students should:

- Visit <https://aka.ms/mfasetup>
- Log in and click "Add sign-in method"
- Pick a sign-in method and follow the instructions.

CODE OF CONDUCT

Please be Reminded:

Conduct, attitude and appearance are important in public, particularly on all forms of public transport.

At all times, students need to display excellent appearance, manners, courtesy, and thoughtfulness.

Give up your seat, don't take up a seat if adults are standing, let people through, don't push, don't obstruct passageways with bags, especially cricket kits and musical instruments etc.

Don't be boisterous or loud. Be mindful of your language.

Help Those Who Need Help

We ask all senior students to not only set a fine example, but to also actively monitor and remind younger students of appropriate behaviour.

Additionally with the Light Rail:

Please be reminded about Light Rail Safety. Please be extra vigilant whilst waiting on the platforms. Please ensure you follow the guidelines from Transport NSW.

Light Rail Safety

Heads Up – play it safe around light rail. Whether you are walking, riding, driving or catching public transport, it is important we all know the rules and play our part to stay safe around Light Rail.

Transport Inspectors

Authorised transport officers are deployed to inspect **Code of Conduct** compliance on School Bus and Tram services in the Eastern Region.

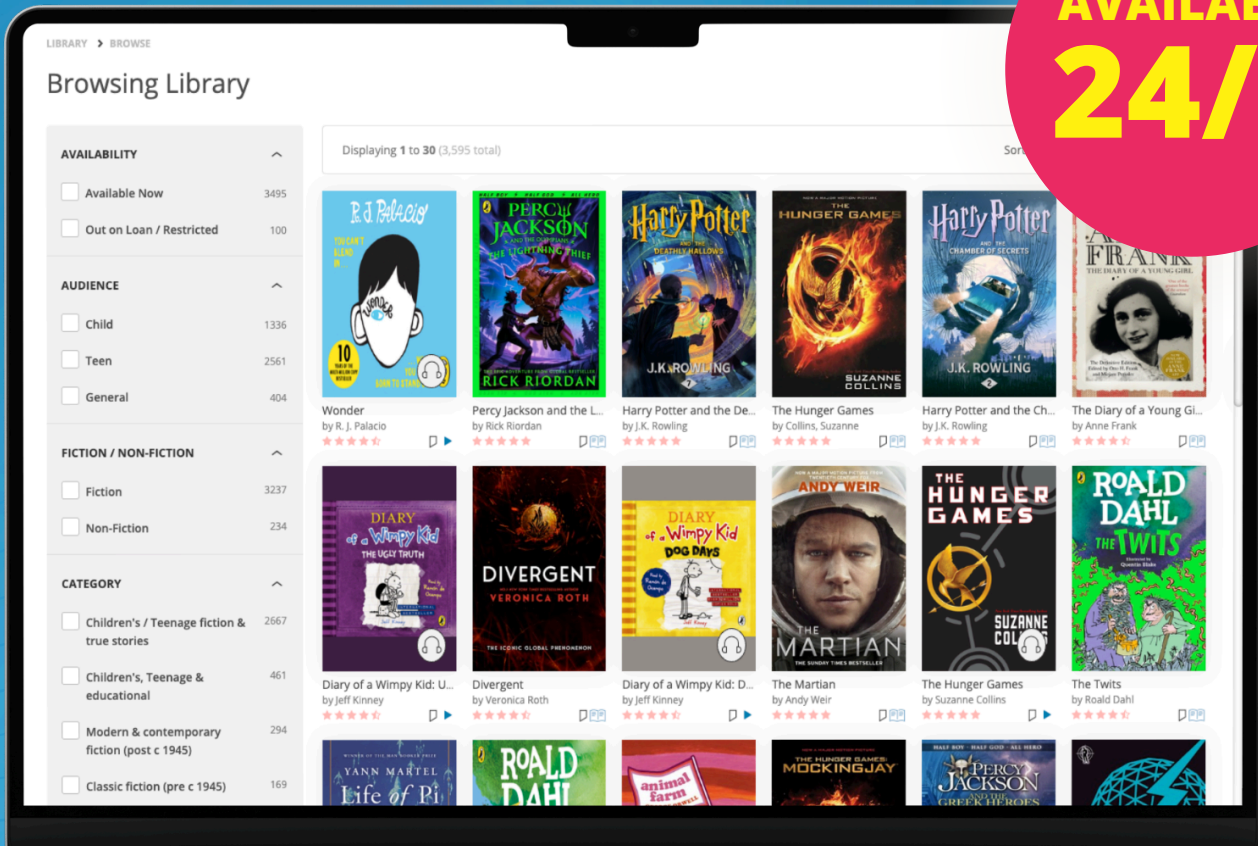

Students who are found to have breached their obligations may lose their travel entitlement and possibly incur an infringement fine.

SBHS Cross Country

Ms Gavin and Ms Park - valuable additions to the SBHS Cross Country program this season.

MIC Message:

The course at Riverview was a true cross-country adventure, featuring logs to jump, narrow passages and challenging hill climbs.

Its central layout also gave spectators an excellent view of the action.

With one week remaining, our Juniors and Seniors have secured fourth place, while the Intermediates will need a strong final performance to finish on the podium.

Coaches Message:

This week's more challenging course tested both pacing and focus.

Some runners attacked the hills too aggressively in the early laps, while others were overly conservative throughout.

Maintaining cadence, rhythm and technique under fatigue will be important, particularly as the final race is almost completely flat and will require strong pace control.

GPS Athletics FAQ

Below are some commonly asked questions with response:

I compete in multiple events. Which event should I be competing in for invitationals?

Athletes who compete in multiple events should communicate with all their coaches which events they are able to perform in.

Athletes are expected to only compete in events they have attended training for.

How many training sessions per week am I expected to attend?

Athletes are expected to attend all sessions during the week, as well as attend the Saturday invitational carnivals.

Attendance is a strong factor in the selection process due to the short length of the season.

I don't have a school athletics singlet. Am I required to buy one?

Athletes are allowed to wear the school PE polo shirt for Saturday invitationals; however, the school singlet is required when competing at the final GPS carnival on Saturday 19 September 2026.

I don't own a pair of spikes. Am I required to buy a pair?

Spikes are not mandatory for training/invitationals; however, they are highly recommended for running on tartan surfaces.

If you do not have a pair of spikes, some coaches/athletes may have spares for athletes to borrow.

Please discuss with your coach if they would prefer you to compete/train in spikes and then consider what avenues you may need to go through to use a pair.

Spikes will be required for Championship day on the Saturday 19 September 2026.

When am I expected to arrive on Saturdays for invitationals?

Athletes are expected to be at the track at least 1 hour before the start of their event. As the timetable does not always occur on schedule, for later starts please aim to arrive earlier if possible.

I competed in discus/javelin at CHS. Am I allowed to compete in these events at invitationals?

As these events are not part of the GPS, athletes will not be allowed to compete in these events on Saturdays.

What do I do after I complete my event?

Athletes are to go immediately to their coach to record their results. If a result is not recorded, it will not be used during the selection process for the final GPS team.

These results are also used to mark attendance.

Once athletes have competed in all their events, and have recorded results for all, they are allowed to go home.

Sprinters are expected to stay back for relays.
